Mr. Robert Bowman
Senior Policy Analyst
Canadian Radio-television and Telecommunications Commission
Ottawa, Ontario
K1A 0N2

Dear Mr. Bowman

Re: Deficiencies to application to add Ariana Television to the list of eligible satellite services in Canada

Further to you letter of July 12, 2006 we have attached to this letter the required response regarding the programming categories and genres breakdown including the percentages thereof.

ATN has its own call center that is staffed to answer questions from viewers and prospective viewers from across Canada on a daily basis. Calls are generated from different communities. In addition we also direct callers to the most convenient manner in which to access any of the ATN channels depending on the area in which they reside. It was due to the frequency of calls from the Afghan community that prompted us to make this application. The calls were numerous enough to suggest that there is a need for a channel of this nature to serve this community.

We trust that the above is in order and we look forward to receiving your favourable reply.

Yours truly,
Asian Television Network International Limited

Prakash D. Naidoo
Vice President and General Manager
