Dear Ms. Rhéaume:

RE: BCE-CTV Benefits Report 2001 – Revised Version

Please find enclosed a revised BCE-CTV Benefits Report 2001 to replace the one currently on file with the Commission.

The original report, dated December 10, 2001, contained a schedule (Schedule 2) which, inadvertently, had omitted from it expenditures in the amount of $2,789,298 related to Long-form Documentaries programming. While the hours were correctly included in the Schedule 1, the expenditures were omitted from Schedule 2 in error. The revised Report correctly reflects the base level expenditures, increasing the total expenditures on Canadian programming from $28,018,952 to $30,808,250. As the base spending level was already met under the original Report, there are no compliance implications relating to the benefits as approved under Decision 2000-747.

We are including, for your convenience, a CD Rom with the files in PDF format, so that the Commission may post the revised report electronically on the CRTC website.

Should you have any questions or require further information, please do not hesitate to contact me.

Yours truly,

E Duffy-MacLean
