

"Health and Safety 24/7!"

For 55 years the **Petroleum Industry's Annual Safety Seminar, PIASS**, has been Canada's premier petroleum health and safety seminar and trade show. At this annual world-class event, delegates join forces with industry CEOs, government leaders, petroleum associations, regulatory bodies and internationally recognized safety professionals to shape their vision and commitment to safety.

This year's theme ***"Health and Safety 24/7"*** focuses on safety both on and off the job. Some of the topics on the May 2-5 agenda include: **Training, Leading with Proactive Measures** and **Recruitment and Retention**. Pre-Seminar Workshops on **CRSP** and **Train the Trainer** are also being offered.

The objective of the four day Seminar is to provide a forum for professional development, information sharing and safety improvement. In addition, the Seminar promotes, recognizes and supports the use of the *UPITFOS Guiding Principles for Worker Safety*. A variety of presentation formats provide a lively forum for discussion of trends and new regulations, as well as the current state of the industry. The Trade Show component encompasses over 100 exhibitor booths, networking and product displays by industry-related safety, health, and training companies/organizations and rounds out a busy and worthwhile agenda.

This non-profit Seminar is a showcase of upstream industry cooperation. Now under the governance of EnForm, it is sponsored and organized on a volunteer basis by the six major Canadian upstream petroleum associations:

- Canadian Association of Geophysical Contractors (CAGC)
- Canadian Association of Oilwell Drilling Contractors (CAODC)
- Canadian Association of Petroleum Producers (CAPP)
- Canadian Energy Pipeline Association (CEPA)
- Petroleum Services Association of Canada (PSAC)
- Small Explorers & Producers Association of Canada (SEPAC)

Also actively involved are:

- Alberta Energy and Utilities Board
- Alberta Workplace Health & Safety
- Canadian Petroleum Safety Council (PSC)
- Petroleum Industry Training Service (PITS)
- Saskatchewan Labour
- Workers' Compensation Board of British Columbia

This is the one safety and environment seminar you can't afford to miss!
