

## Web Statistics

The gathering of statistical information is necessary to accommodate the requirement for statistical reports on VMC user access. If the product is **NOT** hosted on CHIN's server, Web statistics related to access of the product must be provided to CHIN for a period of five years following the launch of the product.

### Required

**A.** For products that are **NOT** hosted on CHIN's server, and for five years following the launch of the product, the following monthly figures must be provided to CHIN on an annual quarterly basis within ten working days of the end of each quarter:

- Hits (or requests)
- Page views (or page impressions)
- Visits (or user sessions)
- Visitors (or unique users)
- Duration of visit (or average session length)

**Note:** Upon request, CHIN will provide a form to use when compiling and sending the above information.
