

## Biotechnology and Industrial Sustainability

### MARCH 22, 2006

#### REMODELING FOR INDUSTRIAL SUSTAINABILITY

- International Trends and Challenges in Industrial Biotechnology
- Market & Economics of Industrial Biotechnology
- Clustering and Industrial Ecology

#### BIO-ENERGY

- Energy Challenges
- Ethanol Technology
- Biorefineries & Bioprocesses
- Bio-Diesel, Bio-Gas, Bio-Electricity

#### BIO-MATERIALS AND BIO-CHEMICALS

- New BioChemicals,
- Natural Fibers in Composites
- BioPlastics & BioPolymers

### MARCH 23, 2006

#### BIOMANUFACTURING

- BioBased Products Feedstocks
- New Industrial Enzymes
- Performance of Bioprocesses
- Designing a BioProduct

#### SHAPING A CREDIBLE FUTURE

- Power and Challenges of Genomics
- Green Chemistry and Sustainability
- Bio Economy at national & international level

- **More than 200 participants**
- **A Conference Program with more than 25 Presentations from National & International Speakers**
- **10 Exhibitors**
- **Great Opportunities for Networking**
