Ms. Diane Rhéaume
Secretary General
Canadian Radio-television and
Telecommunications Commission
Ottawa, Ontario
K1A 0N2

Dear Ms. Rhéaume:

Re: Sponsorship of NTV Bangla

1. On behalf of its members, the Canadian Cable Telecommunications Association (CCTA), in its capacity as a Canadian sponsor, requests that NTV Bangla be added to the Lists of Eligible Satellite Services (the "Lists") for distribution on a digital basis.
2. Last December the Commission announced a new approach to assessing requests for non-Canadian third-language television services to be added to the Lists (Broadcasting Public Notice CRTC 2004-96). CCTA notes that requests for general interest foreign third-language services will generally be approved, subject to packaging and programming rights requirements aimed at minimizing possible negative impact on Canadian third-language services. As required in BPN CRTC 2004-96 the information respecting NTV Bangla is provided in the attachment.

3. NTV is 24-hour general-interest service offering programming in the Bengali language. More than 98% of the programming is in Bengali with less than 2% provided in English.

4. NTV Bangla offers a variety of high-quality Bengali-language programming including news, current affairs, sports, documentaries, comedies, movies, serial dramas, and children's entertainment. Dish Network in the U.S. added NTV Bangla to its international programming schedule in September 2004.

Demand for Service

5. The fact that CCTA, on behalf of the Canadian cable industry, is requesting that NTV Bangla be added to the Lists demonstrates the potential demand for this service in Canada. CCTA believes that legitimizing carriage of non-Canadian services will not only respond to consumer demand for greater choice but it will provide our customers with an incentive to remain a vital part of the Canadian broadcasting system and help increase the benefits associated with digital cable television.

Conclusion

6. CCTA believes that international services clearly make a unique and significant contribution to the diversity of the Canadian broadcasting system. In a global environment it is increasingly important that Canadians have access to multiple sources of programming services. In conclusion, CCTA believes that carriage of NTV Bangla will not only expand the diversity and choice in television services available to underserved third-language ethnic communities in Canada but it will contribute to the growth of digital cable television to the benefit of both subscribers and Canadian programming services.

May 17, 2005

Mr. Michael Hennessy
President
Canadian Cable Telecommunications
Association
Suite1010
360 Albert Street
Ottawa, Ontario K1R7X7

Dear Mr. Hennessy:

Re: Sponsorship application for NTV

This letter serves as evidence that NTV has agreed to be sponsored by the Canadian Cable Telecommunications Association (CCTA) for inclusion on the digital lists of Eligible Satellite Services ("the Lists"). We understand that, should our service be added to the Lists, the service would be available to all distribution undertakings in Canada.

Description of Service

NTV is a general-interest service offering programming in Bengali language. More than 98% of the programming is in Bengali language and only less than 2% of the programming is being provided in English language.

NTV is Bangladesh's best-known and highest-rated satellite TV channel which is now available in North America through Dish Network.

Until recently, there were no Bangladeshi TV channels widely available to viewers in America. Launched in July 2003, NTV is already Bangladesh's best-known, most popular satellite TV channel. It broadcasts 24 hours a day and reaches Bangladeshis throughout Asia, the Mid-East, and now, by partnering with SoundView Broadcasting as of September 16th, 2004, the United States. SoundView Broadcasting is the exclusive representative of

United States. SoundView Broadcasting is the exclusive representative of NTV in North America. Currently we have the largest Bangladeshi viewership in the US, steadily growing at a rate of 1,000 – 1,300 a month.

NTV's high-quality Bangali programming balances news, current affairs, sports and documentaries with pure entertainment -- featuring music, serial dramas, movies, talk shows, comedies, children's entertainment and so much more for the people of all age groups in the families.

Programming

Following is a detailed breakdown of programming by genre, expressed as both the total number of hours per week, and as a percentage of the overall weekly programming schedule.

Program Genre Program Schedule	No. of hours/week	% of Total
News	39:55	25.51%
Documentaries	1:50	1.17%
Lifestyle/human interest/ recreation & leisure	28:43	18.36%
Sports	1:55	1.23%
Drama/Fiction/Comedy	41:20	26.42%
Music/Variety	17:30	11.19%
Religious	12:54	8.25%
Other	12:20	7.88%

Attached is a program schedule, for the 2nd week of May 2005, with descriptions of the programs broadcast in that typical week.

Demand for Service

The fact that the CCTA, on behalf of the Canadian cable industry, has requested that NTV be added to the Lists demonstrates the potential demand for our service in Canada.

Rights for Distribution of Programming in Canada

NTV/SoundView confirms that it has obtained all necessary rights for distribution of its programming in Canada.

Non-Preferential or Non-Exclusive Programming Rights

NTV confirms that it does not hold, and will not obtain, nor will it exercise preferential or exclusive programming rights in relation to the distribution of programming in Canada.

Programming Supply Agreement

NTV does not have, nor has it ever had, a programming supply agreement with a Canadian service.

Conclusion

We appreciate the CCTA's support for NTV. We believe that NTV can add substantially to the diversity of programming being offered by Canadian cable operators as part of their digital cable service.

Sincerely,

Shafquat Chaudhary
President

Subject: deficiency questions re. NTV Bangla

Hi Mary

I have received the supporting information for the CCTA's sponsorship of NTV Bangla today and I have a deficiency question:

The Appendix to PN CRTC 2004-96 requires that sponsors provide "a breakdown of the amount of time during which the service is accompanied by subtitles and/or SAP in English or French, expressed as both the total number of hours per week and as a percentage of the overall weekly schedule." Since the information received for CCTA's sponsorship of NTV Bangla did not contain this information, please submit it.

If you could provide a response to the above question no later than **31 May 2005**, it would be much appreciated.

Subject: RE: deficiency questions re. NTV Bangla

Robert

I've verified with NTV Bangla that they **do not** carry any English subtitling or SAP programming in English.

Regarding English-language programming, NTV Bangla state in their letter of May 17, 2005 that less than 2% of their programming is English-language. However, they have reviewed their calculations and notified me today that the percentage of English-language programming is actually 3%, a total of 5 hours a week.

NTV Bangla also pointed out that the breakdown of hours provided to you in their letter of May 17, 2005 does not include advertising minutes. There are approx. 13 hours and 33 minutes of advertising during the week.

Please let me know if there if you have any more questions.

Best Regards

Mary Lemon
CCTA
