

A World of Solutions Daily

The Carbon Finance Exhibition is open today from 10:00 a.m. to 8:00 p.m.

Saturday, December 3

□ Today in the Conference Centre

- From Capetown to Mongolia, from Istanbul to Kashmir, the links are being made between development and sustainability. **Development Day** (sponsored by the International Institute for Sustainable Development) opens the first of two days on development and adaptation with four sessions: *Linking Development and Climate Change*, *Health, Disaster Management* and a *High Level Panel Discussion*. Among the presentations by international experts: disease, water resources, livestock management, weather disasters, and insurance. Check the detailed agenda available at: www.iisd.org/climate/unfccc/cop_dadays.asp
- How it can work – examples from two African countries show the benefits of sustainable development through carbon financing. Pembina representatives present **The CDM: Development Experience in Africa**, which will provide details on ways some local communities access energy services, expand livelihood opportunities and increase resiliency to climate change.
- **Monitoring and Reporting Greenhouse Gas Sources and Sinks on Canada's Managed Lands**: The Government of Canada invites you to learn about its system for monitoring, accounting and reporting on Canada's forest, agricultural and other managed lands. Followed by a wine and cheese reception.
