

A World of Solutions Daily

Part II Exhibition is open today from 10:00 a.m. to 8:00 p.m.

Thursday, December 8

□ Today in the Conference Centre

- **Climate Change Quebec Technologies Showcase.** Ten Quebec companies that have an innovative technology available for export are presenting their solutions to fight climate change.
- An 11.6 acre brownfield in the heart of the City of Victoria emphasizes the creation of jobs, while the Lac Leamy Park in Canada's Capital Region is recognized as a major attraction with conservation spaces, residential, tourist and commercial functions. These are highlights at **Concrete Thinking for a Sustainable Future**, Canada's Construction Industry – Pushing the Envelope Towards Sustainability. Details at: www.montreal2005.gc.ca
- Quantifying, reporting, validating and verifying GHG mitigation potential for ISO 14604 standards requires special tools and methodologies. The **ISO Standards Panel** looks at these tools and methodologies as seen through the Canadian experience, presented by Technology Early Action Measures (TEAM) and the Government of Canada.
- **Crucial data for future climate change decisions** is a two part session that will explore key data issues that may affect future negotiations of a multilateral climate change mitigation framework.

8:00 a.m. to 5:00 p.m.

Salle Mousseau and Le Salon

8:00 a.m. to 12:00 p.m.

Salle des Saules

9:30 a.m. to 12:30 p.m.

Salle des Pins Conference
Centre, Guy-Favreau Complex

1:00 p.m. to 6:00 p.m.

Salle des Saules

□ Theme of the Day: Transportation

- The Canadian Space Agency is at the **Canada Pavilion** showing how satellites monitor the Earth. Otesha has a theater presentation at noon at the **Stage**, and there is a bike workshop, an interactive tree, the Cocktail Transport Campaign and more at the **Climate Village in Action**. **Special activities** include the solar house tour on board a biodiesel bus, sponsored by Concordia University, Environment Canada and Canada Mortgage and Housing Corporation (departure is 2:00 p.m.).

□ What's Happening near by?

- Climate change through the camera's eye – an international short film competition screens again tonight and is sponsored by *Caméra verte*/Green Camera. The films deal with the theme "Climate change: problems and solutions." The screening is followed by a panel discussion including documentary filmmakers Patricio Henriquez, Suzanne Methot, Magnus Isacson and others at the Theatre, 1564 St Denis, 6:30 to 9:00 p.m.
- Last day to visit the Canadian Coast Guard research vessel **Amundsen** at the Old Port of Montréal.

□ Culture Today

- This is the final day to see **Extreme Nature**, showing natural disasters and how living organisms cope with extreme conditions. Presented by the *Musée du Fjord* (Québec) in cooperation with the *Musée de la nature et des sciences de Sherbrooke* and the Department of Canadian Heritage. It is open today from 8:30 a.m. to 4:30 p.m. at Montreal City Hall, Hall of Honour, 275 Notre-Dame Street East.
