

A World of Solutions Daily

Part II Exhibition is open today from 10:00 a.m. to 4:00 p.m.

Friday, December 9

□ Today in the Conference Centre

- Public health specialists and primary care personnel need to be prepared for patients affected by climate change-related events. These same people can also talk with their patients about taking action on climate change. The session offers certificates for three hours of professional training and is presented by the New Brunswick Lung Association. **Climate Change: What the Health Professionals Need to Know.** Agenda available at: www.nb.lung.ca
- Presentation of the economic benefits of using renewable energies for space conditioning (heating & cooling) and the environmental benefits from the resulting reduction in GHG emissions. **Green Heat: Heating and Cooling the World with Renewables** is presented by the Canadian Association for Renewable Energies (C.A.R.E.).
- The **Green roofs à la montréalaise** project demonstrates how to plant on roofs in the city. Presented by the Urban Ecology Centre, it will help develop local expertise in order to contribute to the reduction in building costs.
- Overfishing and climate change affect the number of fish in the world's oceans. Canada has a strategy to address overfishing and make improvements to international fisheries governance. Details are given in **The Impact of Overfishing and Climate Change on Global Fish Stocks**, a presentation by David Bevan, Assistant Deputy Minister of Fisheries and Aquaculture Management for Fisheries and Oceans Canada.

9:00 a.m. to 12:30 p.m.
Salle des Pins

8:00 a.m. to 11:00 a.m.
Salle Mousseau

10:00 a.m. to 12:00 p.m.
Salle des Saules

12:00 p.m. to 2:00 p.m.
Salle Mousseau

□ Theme of the Day: Clean Air and Energy

- It's Air Quality Day presented by Environment Canada at the **Canada Pavilion**. Take an energy efficiency quiz and a greening enterprises formation at the **Stage**. At **Climate Village in Action**, make small painted murals, see a showcase of technology solutions and green heat, play the Power Switch Interactive game, see how sacred spaces can be greener and more. **Special activities** include *Hydro-Québec's* Energy Wise Campaign.

□ Culture Today

- See the work produced by young people who were invited to make creations from recycled materials or recovered objects in ways that show the importance of simple actions that promise a brighter future. The results of the *Vos mains ont du talent* contest are on display until December 21 as part of the 50th anniversary of the *Salon des métiers d'art du Québec* in **Place Bonaventure, 800 De la Gauchetière Street West**. Hours are Monday to Saturday from 11:00 a.m. to 9:00 p.m. and Sunday from 11:00 a.m. to 6:00 p.m. **Admission is Free.**
