

## A World of Solutions Daily

Part I Exhibition is open today from 10:00 a.m. to 8:00 p.m.

Wednesday, November 30

### □ Today in the Conference Centre

- Learn about climate change and energy at the Nova Scotia Department of Energy's **Nova Scotia Event**.
- Clean Development Mechanism (CDM) is a key component in helping countries meet their Kyoto obligations. The World Bank presents the results of the recently concluded CDM study at **Programmatic CDM**.
- **Biodiversity and Climate Change Session**: This session will explore the interactions between the natural environment and climate change.
- Some debate the rate of climate change – some scientists and visionaries are busy doing something about it. Canada's world-renowned National Film Board presents **Turning Down the Heat** – a look at the practical and economically viable solutions to climate change. The film features work on solar energy in the US, Japan and Holland; energy efficiency in Canada; and the wind revolution in Europe-Asia.

8:00 a.m. to 12:00 p.m.

Salle des Ormes and Salle des Pins

1:00 p.m. to 5:00 p.m.

Salle Mousseau

1:30 p.m. to 5:00 p.m.

Salle des Saules

6:30 p.m. to 8:00 p.m.

Salle Mousseau

### □ Theme of the Day: School Day

- Agriculture plays a special role in the climate change issue since it is both affected by weather extremes and contributes to greenhouse gas emissions. Agriculture and Agri-Food Canada presents *Agriculture and Climate Change* at the **Canada Pavilion**. At the **Stage** there is a presentation of re-cycled toys, and the launch of the Interactive *Arctic Mission Game*, based on Jean Lemire and his team's 2003 Arctic Mission aboard the SEDNA. **Climate Village in Action** has school tours, a presentation of a climate change project from St. Judes School, fabrication of small painted murals and more. The Canadian Space Agency features satellites in the **Special Activities**.

### □ What's Happening near by?

- The science of climate change is a dynamic and fast-growing field that has been the foundation for the development of policies. Four days (Nov. 30 to Dec. 3) are devoted to the **Sciences and Society Forum: Climate Change**. At the *Complexe des sciences – Université du Québec à Montréal*, 200 Sherbrooke W., Room SH-2800. Final details at: [www.sciencessociete.uqam.ca/climat](http://www.sciencessociete.uqam.ca/climat)

### □ Culture Today

- View works by **Edward Burtynsky**, a Canadian artist living in Toronto, showcasing landscapes permanently altered by human activity. At the Agora of the Montreal Museum of Contemporary Art, 185 St. Catherine Street West, until December 8.
- View works by **Karim Rholem, Isabelle Hayeur** and **young students from India** in the public passageway of the Palais des Congrès, 159 St. Antoine Street West, until December 8.
