

Montréal 2005

United Nations Climate Change Conference: Montréal 2005 Parallel Events

A World of Solutions

Exhibition, Conferences and Special Events

Guy-Favreau Complex

From November 27 to December 9, 2005

Final Program

About A World of Solutions

From November 27 to December 9, 2005, the city of Montreal will host the United Nations Climate Change Conference. "Montreal 2005" is the very first meeting of the Parties to the Kyoto Protocol since it became into effect in February of this year. It is also the first United Nations Climate Change Conference ever to be held in North America.

In addition to this historic event, **A World of Solutions**, organized by many partner organizations, will also feature, for the general public and the 7000 participants, a host of exhibits, displays, conferences and special events sure to interest anyone interested in climate change – the most serious environmental issue the world faces today.

This major event at the **Guy-Favreau Complex** brings together scientists, policy makers, environmental organizations, business people and others who are engaged in the fight against climate change, from understanding its causes and impacts to seeking out and implementing solutions to its challenges. **A World of Solutions** will be of interest to anyone who wants to know more about climate change and find out what they can do to be part of the solution at home, on the road, at work and in their community.

A World of Solutions is a unique opportunity for the general public to see how everyone can be part of meeting this global challenge and ensuring the quality of life of future generations.

Welcome to Montréal, to Canada and to ***A World of Solutions!***

Table of contents

1. A World of Solutions Exhibition

A World of Solutions – Part I

- Hours of operation
- Floor plans
- About the Exhibitors

Carbon Finance Exhibit

- Hours of operation
- About the Exhibitors

A World of Solutions – Part II

- Hours of operation
- Floor plans
- About the Exhibitors

2. A World of Solutions – Conferences

3. A World of Solutions – Daily Events

4. A World of Solutions – Contacts

A1 A World of Solutions – Sponsored Conferences and Events Outside of the Guy-Favreau Complex

A2 A World of Solutions – Cultural Events

1. A World of Solutions - Exhibition

The exhibits are divided into three parts.

A World of Solutions-Part I highlights solutions offered by all government levels. (Prepared with the assistance of Intertask Conferences).

A World of Solutions-Part II presents private sector solutions. (Organized in association with the Globe Foundation of Canada).

The **Carbon Finance Exhibition** on the weekend of December 3-4 and 5 is organized by the International Emission Trading Association (IETA) and World Bank.

A World of Solutions – Part I

A World of Solutions – Part I is in the Guy-Favreau Complex from November 27 to December 2 (organized by Intertask Conferences).

Event organizer: Ken Ross. 613-238-7962, or by email logistics@intertaskconferences.com

Hours of Operation:

Sunday, November 27, 2:00 p.m. - Official Opening Ceremony of **A World of Solutions** Exhibition at the Canada Pavilion

Monday, November 28 to Friday, December 2: 10 a.m. to 8 p.m.

About the Exhibitors at A World of Solutions – Part I

The exhibitors represent governments and organizations from across Canada.

Brandon University

Canada Pavilion

Climate Village in Action (Association québécoise de lutte contre la pollution atmosphérique, Association québécoise pour la promotion de l'éducation relative à l'environnement, Canadian Association of Renewable Energies, Urban Ecology Centre, CLUB 2/3, Canadian GeoExchange Coalition, Sierra Youth Coalition, La Siembra Co-Op, Corporation des entreprises en traitement de l'air et du froid, Corporation St-Laurent, Environnement Jeunesse, Équiterre, Greenpeace International – Solar Generation, Canadian Boreal Initiative, Kairos, Friends of the Earth, Otesha, Energy Strategies, Students on Ice, Vélo-Québec, Voyagez Futé Montréal, World Wildlife Fund)

City of Calgary

City of Edmonton

City of Laval

City of Montréal

City of St-Jérôme

City of Sudbury

École de technologie supérieure

École Polytechnique de Montréal

University of Lethbridge

University of Manitoba

University of Victoria

University of Winnipeg

World Urban Forum

Carbon Finance Exhibition

The *Carbon Finance Exhibit* is in the Guy-Favreau Complex from December 3 to December 5, 2005 and has been organized by the International Emissions Trading Association (IETA) and the World Bank.

Event coordinator: Sandeep Pandher. 613-594-3912 or email pandher@ieta.org

Hours of Operation

Saturday, December 3 to Monday, December 5, 10:00 a.m. – 8:00 p.m.

About the Exhibitors at the Carbon Finance Exhibition

| | |
|---|-------------------------------|
| AgCert Canada | European Carbon Fund |
| Alcan | First Environment Inc. |
| Baker & McKenzie | FONAM - Peru |
| Bennett Jones | Fourth Generation |
| Bertin Technologies | GHGx |
| Biothermica Technologies Inc. | Greenstream |
| Cansolv Technologies | ICF |
| Canadian Standards Association | Innovative Hydrogen Solutions |
| CCX | Macleod Dixon |
| Chevron Texaco | MGM International |
| Clifford Change LLP | Natsource |
| Climate Change Capital | NewValues |
| Country Booths - Bolivia, Colombia, Ecuador and Chile | Norsk Hydro |
| Country Booths - Central America | PointCarbon |
| CO ₂ Solutions Inc. | Safety-Kleen Canada Inc. |
| CTI | Smartsoil |
| Danish Carbon Fund | The Gold Standard / BASE |
| DNV | TFS |
| Ecosecurities | TUV Suedland |

More information:

More details on the Carbon Finance Exhibition and Carbon Finance Day can be found at: www.ieta.org

A World of Solutions – Part II

A World of Solutions – Part II is in the Guy-Favreau Complex from December 6 to December 9, 2005 (organized in association with Globe Foundation of Canada).

Event organizer: Freddie Frankling. 604-666-5830 or email freddie.frankling@globe.ca

Hours of Operation:

Tuesday – Thursday, December 6 – 8, 10:00 a.m. – 8:00 p.m.

Friday, December 9, 10:00 a.m. – 4:00 p.m.

About the Exhibitors at A World of Solutions – Part II

The exhibitors represent the public and private sector, organizations and some government programs.

Agence métropolitaine de transport

Alcan

Association of International Automobile Manufacturers of Canada

Ballard Power Systems

Bell Canada

BioCap Canada

Bio-Terre Systèmes

Biothermica

Bombardier

Cimco Refrigeration

CN

2. A World of Solutions – Conferences

The two-week conference program was organized by a number of stakeholder organizations.
All activities are in the **Conference Centre of the Guy-Favreau Complex**.

Sunday, November 27 – Opening Ceremony – A World of Solutions

Opening ceremony for *A World of Solutions*, including special programming
Time: 2:00 p.m. Location: Canada Pavilion

Manitoba Solution Providers Event: a showcase of the world class capabilities of innovative companies, leading ENGOs and unique research. For more info: Ms. Juliane Schaible, Manitoba Energy, Science & Technology 204-945-5161 JSchaible@gov.mb.ca
Time: immediately following the opening ceremony Location: Salle des Saules

Monday, November 28

Rebroadcast of COP11/MOP1 opening ceremony: For more info: Jeff Macdonald, 514-496-5504, jeffery.macdonald@ec.gc.ca
Time: 8:00 a.m. to 12:00 p.m. Location: Salle Mousseau and Salle des Saules

The Great Warming: (5:30 p.m. – 8:00 p.m.) Adapted from the three-hour television series, *The Great Warming* is an 80-minute film that includes hard-hitting comments from scientists and opinion-makers, as well as new scenes featuring the emerging voice of the US evangelical community for action on climate change. A panel will follow. For more info: Stonehaven, Karen Coshof 514-527-2131 ext. 305, k.coshof@stonehaven.ca
Time: 5:30 p.m. to 8:00 p.m. Location: Salle Mousseau and Salle des Saules

Green Sacred Spaces- Energy Efficiency for Religious Buildings: Greening Sacred Spaces can be both symbolic and tangible, but requires special attention and funding support. In partnership with Natural Resources Canada, Office of Energy Efficiency, KAIROS has undertaken such an initiative and will present ideas and a case study on a Canadian religious building. For more info: Kairos, Joy Kennedy, 416-463-5312, ext. 222, jkennedy@kairoscanada.org
Time: 10:00 a.m. to 12:00 p.m. Location: Salle des Pins

Tuesday, November 29

At what cost? The Launch of the youth presence in Montreal: Youth from around the world are challenging governments to start asking what climate change will cost future generations. Join us for a dynamic showcase of youth experiences, perspectives and action during the COP11 negotiations, and the official launch of the international youth summit declaration. For more information: Sierra Youth Coalition, Matthew Carroll, 613-884-9594, m@tthew.org.uk
Time: 1:00 p.m. to 3:00 p.m. Location: Salle Mousseau

The NFB presents Being Caribou: Environmentalist Leanne Allison and wildlife biologist Karsten Heuer follow a herd of 120,000 caribou on foot, across 1,500 kilometres of rugged Arctic tundra. Dramatic footage shows the herd's delicate habitat and potential devastation from oil and gas development in calving grounds in Alaska's Arctic National Wildlife Refuge. For more info: NFB, Sylvain Levesque 514-283-3838, s.levesque@onf.ca
Time: 6:30 p.m. to 8:00 p.m. Location: Salle Mousseau

Sustainable Transport Forum: Panelists from the Canadian Urban Transit Association (CUTA), the Agence métropolitaine de transport (ATM) and other stakeholders involved in the public transportation sector. For more info: Canadian Urban Transit Association (CUTA), Marco D'Angelo 613-842-3616, dangelo@cutaactu.ca
Time: 9:30 a.m. to 12:00 p.m. Location: Salle des Saules

Climate Consequences of Canada's Oil Sands Development: The climate consequences of Canada's oil sands developments and policy suggestions for post 2012. For more information: Pembina Institute, Dan Woynilowicz; 403-269-3344 ext. 107; danw@pembina.org
Time: 9:30 a.m. to 11:30 a.m. Location: Salle des Pins

Mitigating GHGs in Agriculture: Mitigating greenhouse gases by promoting soil conservation and conservation in agriculture, and working through farmer associations. For more info: Soil Conservation Council of Canada, Doug McKell, 306-695-4212, djbn.mckell@sasktel.net
Time: 8:00 a.m. to 10:00 a.m. Location: Salle des Ormes

Wednesday, November 30

Programmatic CDM: A presentation of the recently conducted CDM study. For more info: World Bank, Mahua Acharya 202-458-2874 macharya@worldbank.org or Klaus Oppermann koppermann@worldbank.org

Time: 1:00 p.m. to 5:00 p.m.

Location: Salle Mousseau

The NFB presents *Turning Down the Heat*: While some meteorologists debate the rate of climate change, other scientists and visionaries are busy doing something about it. *Turning Down the Heat* travels the world showcasing practical and economically viable solutions to climate change: solar energy in the US, Japan and Holland; energy efficiency in Canada; and the wind revolution in Europe/Asia. For more info: NFB, Sylvain Levesque 514-283-3838, s.levesque@onf.ca

Time: 6:30 p.m. to 8:00 p.m.

Location: Salle Mousseau

Biodiversity and Climate Change Session: This session will explore the interactions between the natural environment and climate change including the following issues: Impact of climate change on Canadian Environment; Wildlife impacts and adaptations; climate impacts on tropical ecosystems (Asia, Africa); carbon storage and vulnerability of peatland systems; Risk of enhanced fires and floods and mitigation options; Actions by Convention on Biological Diversity and Climate Change Convention; launch of awareness materials on biodiversity and climate change. The session will be divided into two parts 1.30- 2.45 High level Panel Session; 3-5 p.m. – In depth presentations and review. For more info: Ed Wiken, Wildlife Habitat Canada ewiken@whc.org Tel: 613-722-2090 Ext. 225; or Faizal Parish Global Environment Centre faizal.pariah@gmail.com www.peat-portal.net

Time: 1:30 p.m. to 5:00 p.m.

Location: Salle des Saules

Nova Scotia event: For more info: Nova Scotia Department of Energy, Jonah Bernstein (902) 424-4612, bernstjs@gov.ns.ca

Time: 8:00 a.m. to 12:00 p.m.

Location: Salle des Pins and Salle des Ormes

Thursday, December 1

Science for Solutions: Short presentations by six eminent Canadian scientists at the forefront of climate science research on recent advances of particular interest to Canadians, and science contribution to policy, adaptation and mitigation. Topics: Regional scale climate information; Past climate changes; the Carbon cycle; Extreme events; "Tipping points" in the climate system; and Arctic climate change. The session will be chaired by Prof. Gordon McBean from the University of Western Ontario. For more info: Meteorological Service of Canada (MSC), Douglas Whelpdale 416-739-4869 Douglas.Whelpdale@ec.gc.ca

Time: 9:00 a.m. to 12:30 p.m.

Location: Salle Mousseau (Salle des Pins for overflow)

Global Health Alert: Climate Change Risks, Strategies and Solutions: Two panels followed by discussions on risk assessment and health impacts from air & natural hazards, water, food and vector borne disease, extreme temperatures, vulnerable populations and socio-economic impacts, and the national role in managing risks of climate change to health: prediction, detection and prevention. For more info: Health Canada, Jacinthe Séguin 613-954-9161 jacinthe_seguin@hc-sc.gc.ca or Marielou Verge 450-646-1353 #375 marielou_verge@hc-sc.gc.ca

Time: 1:00 p.m. to 6:00 p.m.

Location: Salle Mousseau and Le Salon

CEMR Event: The "Centre d'expertise sur les matières résiduelles" (CEMR) presents the links between GHG reduction and waste management. For more info: CEMR, Stella Anastasakis 514-728-3999 direction@cemr.ca

Time: 9:00 a.m. to 12:00 p.m.

Location: Salle des Saules

TOHU Event: TOHU - La cité des arts du cirque on their environmental leadership demonstrated by linking creativity and climate change. For more info: TOHU - La cité des arts du cirque, Martin Ponton 514-374-3522, ext. 2233 Martin.Ponton@tohu.ca

Time: 1:30 p.m. to 3:00 p.m.

Location: Salle des Saules

Friday, December 2

Living with Climate Change: Sharing Adaptation Experiences: Examples of sector-specific adaptation and sharing of lessons-learned. The day is divided into four panel sessions with discussions: (1) Food Security; (2) Water Resources; (3) Coastal Zones; and (4) Communities/Infrastructure. Examples from developing countries, countries in economic transition, and developed countries. For more info: Canadian Climate Impacts and Adaptation Research Network, Carrie Spencer 613-992-0644 Carrie.Spencer@nrcan.gc.ca

Time: 10:00 a.m. to 6:00 p.m.

Location: Salle des Saules, Salle des Pins and Salle des Ormes

Carbon Capture and Storage Forum: Carbon capture and storage technologies, risk assessment, public attitudes on carbon storage, clean coal and the international view. For more info: NRCan, Donna Baskin 613-947-2651 dbaskin@nrcan.gc.ca or Siddiq McDoom 613-995-8447 siddiq.mcdoom@nrcan-nrcan.gc.ca

Time: 9:30 a.m. to 7:30 p.m.

Location: Salle Mousseau and Le Salon

Saturday, December 3

The CDM: Development Experience in Africa: An introduction to the CDM and the important sustainable development benefits realized by host countries through carbon financing. Representatives from Pembina's CDM Small Projects facilities in two African countries will illustrate the realizable benefits to local communities through access to energy services, expanded livelihood opportunities and increased resiliency to climate change. For more information: Pembina Institute, Paul Cobb; 403-269-3344 ext.115 paulc@pembina.org
Time: 8:30 a.m. to 11:30 a.m. **Location:** Salle Mousseau

Monitoring and Reporting Greenhouse Gas Sources and Sinks on Canada's Managed Lands: The Government of Canada invites you to learn about its system for monitoring, accounting and reporting on Canada's forest, agricultural and other managed lands. For more info: Aimee Johnston, Agriculture and Agri-Food Canada, 613-715-5503, johnstonai@agr.gc.ca
Time: 1:00 p.m. to 3:00 p.m. **Location:** Salle Mousseau and Lobby

Development Day: Scientists, policy makers, negotiators and practitioners from both climate change and development communities come together for discussion focusing on links between development and climate change. Four sessions are planned: (1) Linking Development and Climate Change; (2) Health; (3) Disaster Management; and (4) High Level Panel Discussion. For more info: International Institute for Sustainable Development, Jo-Ellen Parry 204-958-7722 jparry@iisd.ca.
Time: 9:00 a.m. to 7:00 p.m. **Location:** Salle des Saules, Salle des Pins, Salle des Ormes and Le Salon

Sunday, December 4

Is all Carbon sequestration equal? An inquiry into the value of carbon sinks considering the carbon source and the retention time of the sink: Rainforest restoration with a special look at a Sri Lankan case study for carbon sequestration. For more information: Falls Brook Centre (New-Brunswick), Ms. Jean Arnold, 506-375-8143 or 506-375-4221, ja@fallsbrookcentre.ca
Time: 9:30 a.m. to 5:00 p.m. **Location:** Salle Mousseau

Adaptation Day: Scientists, policy makers, negotiators and practitioners from both climate change and development communities come together to from around the world to present and discuss the latest developments on adaptation. Four sessions are planned: (1) Adaptation Science; (2) Community-Based Adaptation; (3) Experience with National Adaptation Programmes of Action; and (4) High Level Panel Discussion. For more info: International Institute for Sustainable Development, Jo-Ellen Parry 204-958-7722 jparry@iisd.ca
Time: 9:00 a.m. to 6:00 p.m. **Location:** Salle des Saules, Salle des Pins, Salle des Ormes and Le Salon

Monday, December 5

Carbon Finance Day: A knowledge platform for new entrants in the market and CoP11 participants, as well as an update for buyers, sellers and other stakeholders. The focus is on the latest status and trends of the carbon market. Climate change mitigation solutions, specialized services and conferences on the Clean Development Mechanism (CDM) are showcased through the Carbon Finance Day. For more info: IETA, Sandeep Pandher 613-867-4382 pandher@ieta.org or Andrei Marcu 416-487-8591 marcu@ieta.org
Time: 9:00 a.m. to 8:00 p.m. **Location:** All rooms

Tuesday, December 6

Arctic Day - Perspectives From the Pole of Change: Canada sponsors Arctic Day as a northern nation to highlight climate change impacts on people, communities and ecosystems in the Canadian and circumpolar North, alongside a celebration of the traditional northern cultures threatened by the rapid changes in the northern climate. Live performances, presentations and samples of traditional Arctic food. For more information: Indian and Northern Affairs Canada, Leslie Whitby 819-997-2728 whitbyl@inac.gc.ca.
Time: 9:00 a.m. to 6:00 p.m. **Location:** All rooms

Wednesday, December 7

Rebroadcast of COP11/MOP1 High Level Session: For more info: Jeff Macdonald, 514-496-5504, jeffery.macdonald@ec.gc.ca
Time: 8:00 a.m. to 12:00 p.m. **Location:** Salle Mousseau

Objectives and Orientations of the Energy Strategy for Québec: Recently the government of Québec released a consultation paper on objectives and orientations of the Energy Strategy for Québec. This event aims to highlight challenges and guidelines of the consultation paper and express ministry views on it. For more info: Ministère des Ressources naturelles et de la Faune, Michel Lesueur, 418-627-6380 #8307, Michel.lesueur@mrfn.gouv.qc.ca
Time: 12:30 p.m. to 4:00 p.m. **Location:** Salle Mousseau

The Great Warming: Adapted from the three-hour television series, The Great Warming is an 80-minute film that includes hard-hitting comments from scientists and opinion-makers, as well as new scenes featuring the emerging voice of the US evangelical community for action on climate change. A panel will follow. For more info: Stonehaven, Karen Coshof 514-527-2131 ext. 305, k.coshof@stonehaven.ca
Time: 5:30 p.m. to 8:00 p.m. Location: Salle Mousseau

Northeastern United States - Eastern Canada Regional Climate Action Plan - progress and pitfalls: The progress and pitfalls of the Northeastern United States - Eastern Canada Regional Climate Action Plan. For more information: Conservation Council of New Brunswick, David Coon, 506-458-8747 or 506-461-1023; ccnbcoon@nb.aibn.com.
Time: 10:00 a.m. to 12:00 p.m. Location: Salle des Saules

Sustainable Development Criteria & CDM Project Selection: Technical conference on an innovative methodology about the elaboration of the national sustainable development criteria for the selection the CDM projects. A concrete example will also be presented about the choice of CDM energy efficiency projects in Tunisia, realised in the SAGES project. For more info: Agence de l'efficacité énergétique du Québec, Éric Léger 418-627-6379 eric.leger@aee.gouv.qc.ca or Agence nationale de maîtrise de l'énergie de la Tunisie, Néjib Osman 216-71-288-997 osman.nejib@anme.nat.tn
Time: 12:30 p.m. to 3:30 p.m. Location: Salle des Saules

Heat or Eat: Towards an Atlantic Canada Strategy, Part I of II: A panel discussion by experts and analysts, spanning four provinces, examining the effects of increased energy costs on the poor demographic, as well as current policy barriers to the adoption of energy efficiency practices by low-income households. For more information: Ecology Action Centre, Dave Ron; 902-440-8878; dave@ecologyaction.ca
Time: 6:00 p.m. to 8:00 p.m. Location: Salle des Saules

Capturing Canada's Green Advantage: Towards a Sustainable Bioeconomy: Forests and agriculture are at the foundation of the BIOCAP Event. Sessions include: building networks to explore the carbon cycle, adding value in agriculture through climate change solutions and more. For more info: BIOCAP Canada Foundation, Lisa Doulas, 613-542-0025, doulasl@biocap.ca
Time: 9:00 a.m. to 5:00 p.m. Location: Salle des Pins and Le Salon

Potential for Organic Farming as Climate Change Mitigation and Adaptation Activity: A look at agriculture related projects. For more info: Agro Eco, Ferko Bodnar, +31-318-420405, f.bodnar@agroeco.nl
Time: 2:00 p.m. to 4:00 p.m. Location: Salle des Ormes

Networking Cocktail (MDEIE du Québec) (by invitation only): Ministère du développement économique, de l'innovation et de l'exportation, Myriam Blais, 418-691-5698 ext. 4062, Myriam.Blais@mdeie.gouv.qc.ca
Time: 6:00 p.m. to 8:00 p.m. Location: Le Salon

Thursday, December 8

Climate Change Quebec Technologies Showcase: Ten Quebec companies that have an innovative technology available for export will have an opportunity to present their products and services to an international audience that is on the lookout for new efficient climate change prevention technologies. For more info: Enviro-Access, François Roberge 514-284-5794 #22 froberge@enviroaccess.ca
Time: 8:00 a.m. to 5:00 p.m. Location: Salle Mousseau and Le Salon

Canada's Construction Industry... Pushing the Envelope towards sustainability: A presentation on the cement industry's climate change approach. For more info: Canadian Cement Association, Sharon Daly 613-236-9471 sdaly@cement.ca
Time: 8:00 a.m. to 12:00 p.m. Location: Salle des Saules

Crucial data for future climate change decisions: This two part session will explore key data issues that may help underpin future negotiations of a multilateral climate change mitigation framework. Part one, led by the World Resources Institute, will outline key insights from their new publication "Greenhouse Gases and International Climate Change Cooperation: Insights from the Data". Part two will focus on "Implications for climate change policy of trends in exports and imports of energy commodities and energy intensive goods". For more info: Murray Ward +64-4-4722652 murray.ward@paradise.net.nz
Time: 1:00 p.m. to 6:00 p.m. Location: Salle des Saules

ISO Standards Panel: The government of Canada through TEAM (Climate Change Technology Early Action Measures) hosts a panel with 6 presenters This event will present tools and methodologies for quantifying, reporting, validating and verifying the GHG mitigation potential for projects according to ISO 14064 standard ... the Canadian experience. For more info: TEAM Operations Office, NRCAN, Dianne Rogers 613-943-5913, dianne.rogers@nrcan.gc.ca
Time: 9:30 a.m. to 12:30 p.m. Location: Salle des Pins

Heat or Eat– Part II of II: Energy Efficiency and Rate Affordability for Low Income Households in Canada: Energy efficiency for low-income households – by invitation only. A workshop on tackling the energy burden in Atlantic Canada and finding solutions to the fuel crunch through sustainable practices, with extra-provincial and international examples applied. For more information: Ecology Action Centre, Dave Ron; 902-440-8878; dave@ecologyaction.ca
Time: 1:00 p.m. to 5:00 p.m. **Location:** Salle des Pins

Friday, December 9

Green Heat: Heating and Cooling the World with Renewables: This session explains the economic benefits of using renewable energies for space conditioning (heating & cooling) and the environmental benefits from the resulting reduction in GHG emissions. For more information: Canadian Association for Renewable Energies, Bill Eggertson, 613-728-0822, eggertson@renewables.ca
Time: 8:00 a.m. to 11:00 a.m. **Location:** Salle Mousseau

The Impact of Overfishing and Climate Change on Global Fish Stocks: Presentation by David Bevan, Assistant Deputy Minister of Fisheries and Aquaculture Management for Fisheries and Oceans Canada, on the impact of overfishing and climate change on global fish stocks, as well as Canada's strategy to address overfishing and improvements to international fisheries governance. For info: Jonathan Terkel, Communications Branch - DFO/MPO, 613-990-2387, terkelj@dfo-mpo.gc.ca
Time: 12:00 to 2:00 p.m. **Location:** Salle Mousseau

Green roofs à la montréalaise: Residential Green Roof Demonstration Project on Existing Montréal Cooperative-Duplex: This project demonstrates the possibilities of planted roofs in the city and will help develop more local expertise in order to contribute to the reduction in building costs: Urban Ecology Centre, Owen Rose, 514-522-6936, owen.rose@mail.mcgill.ca.
Time: 10:00 a.m. to 12:00 p.m. **Location:** Salle des Saules

Climate Change: What the Health Professionals Need to Know: Climate change information for health care professionals. For more information: New Brunswick Lung Association, Barbara MacKinnon, 506-455-8961 ext 103, barb.mackinnon@nb.lung.ca
Time: 9:00 a.m. to 12:30 p.m. **Location:** Salle des Pins

3. A World of Solutions – Daily Events

All daily events at *A World of Solutions* are based on theme days. Exhibitors will be concentrating on themes as well, so you may wish to visit an exhibit more than once.

Monday, November 28: *Impact and Adaptation Theme*

Canada Pavilion:

- Natural Resources Canada - Adapting to Climate Change

Stage:

- Manitoba Exhibitors Presentations (2:00 p.m.)
- World Wildlife Fund: Film (6:00 p.m.)

Climate Village in Action:

- ENvironnement JEUnesse - Climate change, what are we talking about?
- AQPERE - Carbon and Waste Free Operation
- WWF – Impact of Climate Change on Developing Countries
- *Corporation Saint-Laurent*
- Kairos – Greening Sacred Spaces
- Urban Ecology Center – Urban Life Research
- Friends of the Earth - Fabrication of small painted murals and ideas for practical climate change actions
- Virtual exhibition

Special activities:

- *Université du Québec à Montréal* -Temperature Hikes versus Precipitation– Impacts on Infrastructures
- The-art-miles-mural-project

Tuesday, November 29: *Transportation Theme*

Canada Pavilion:

- Natural Resources Canada and Transport Canada – Sustainable Transportation - A Route Worth Traveling

Stage:

- NGO – National Actions by Bikes (10:30 a.m.)
- *Les Respectables* Concert (12:00 noon)
- Manitoba Exhibitors Presentations (2:00 p.m.)
- *Université de Sherbrooke*– *Libre accès aux transports* (4:30 p.m.)
- Climate Change and Railway Clips (6:00 p.m.)

Climate Village in Action:

- ENvironnement JEUnesse -- *Rébécane*: Bike Workshop
- Équiterre – Cocktail Transport Campaign
- AQPERE - Bicycle Path Project
- Urban Ecology Centre – Alternative Urban Transportation
- Cambio – Young winners of scholarships (Climate Change Project) - video
- Friends of the Earth - Fabrication of small painted murals and ideas for practical climate change actions
- *Vélo-Québec* – Atelier vélo-boulot-dodo
- Virtual exhibition

Special activities:

- The-art-miles-mural-project
- Concordia University and Canada Mortgage and Housing Corporation - Solar House Tour
Register at Canada Pavilion (biodiesel buses depart at 2:00 p.m.)

Wednesday, November 30: *School Day Theme*

Canada Pavilion:

- Agricultural and Agri-Food Canada - Agriculture and Climate Change

Stage:

- Club 2/3: Recycled Toy Presentation (10:30 a.m.)
- Launch of the Arctic Game – Jean Lemire (webcast with Jean Lemire and ONF) (12:00 noon)
- Manitoba Exhibitors Presentations (2:00 p.m.)
- University of Victoria DVD (4:30 p.m.)

Climate Village in Action:

- School tours (exhibition visit, scavenger hunt, surprises)
- Club 2/3 - Recycled toys and effects of the automobile on climate change
- Cambio – Young winners of scholarship (Climate Change project) - vidéo
- Friends of the Earth - Fabrication of small painted murals and ideas for practical climate change actions
- Équiterre - Organic food testing
- Sierra Youth Coalition - Video presentation and information
- *Stratégies Énergétiques (S.É.)* - Geothermal Alternatives
- St. Judes School – Climate Change Projects
- Virtual exhibition: One-Tonne Challenge Youth – www.co2zilla.ca – www.enjeu.qc.ca – www.habitatjam.com

Special activities:

- Space Agency - Satellite use activity
- ETS - R&D Clubs
- The-art-miles-mural-project

Thursday, December 1: School Day Theme**Canada Pavilion:**

- Health Canada - Our Climate – our Health and Environment Canada – GHG Essentials

Stage:

- K - *Je m'emBALLe* (10:30 a.m.)
- Arctic Game – Jean Lemire (webcast with Jean Lemire and ONF) (12:00 noon)
- Manitoba Exhibitors Presentations (2:00 p.m.)
- Greenpeace Solar Generation: Greenland movie presentation (4:30 p.m.)

Climate Village in Action:

- School tours (exhibition visit, scavenger hunt, surprises)
- Greenpeace – Greenland Expedition
- Sierra Youth Coalition – Video presentation and information
- St. Judes School – Climate Change Projects
- *Stratégies Énergétiques (S.É.)* - Geothermal Alternatives
- Friends of the Earth - Fabrication of small painted murals and ideas for practical climate change actions
- Virtual exhibition: One-Tonne Challenge Youth – www.co2zilla.ca – www.enjeu.qc.ca – www.habitatjam.com

Special activities:

- Space Agency – How satellites can help the science of CC
- ETS - R&D Clubs
- Concordia University and Canada Mortgage and Housing Corporation - Solar House Tour
Register at Canada Pavilion (biodiesel buses depart at 10:00 a.m.)

Friday, December 2: Sustainable Cities Theme**Canada Pavilion:**

- Canada Mortgage and Housing Corporation and Public Works and Government Services Canada - Sustainable Cities Initiatives
- National Research Council - Sustainable Cities Tools and Green Roof Technologies

Stage:

- IRC-CNRC - Sustainable practice: Green Roof Technologies (12:00 noon)
- Manitoba Exhibitors Presentations (2:00 p.m.)
- Concordia: Solar House DVD (4:00 p.m.)
- *Complexe environnemental Saint-Michel* DVD (4:30 p.m.)

Climate Village in Action:

- *ENvironnement JEUnesse* -- Ecologic waste and compost management
- Friends of the Earth - Fabrication of small painted murals and ideas for practical climate change actions
- Urban Ecology Centre: Urban Life Research
- *Vélo-Québec*: vélo-boulot-dodo workshop
- *Voyagez Futé Montréal*: Public Transport and Car-pooling
- Virtual exhibit: www.habitatjam.com

Special activities:

- City of Montréal - Visit to the TOHU building and the CESM with biodiesel buses
Departures (Guy-Favreau Complex): 10:00 a.m., 11:00 a.m., 1:00 p.m., 2:00 p.m.

Saturday, December 3:

Canada Pavilion:

- International Carbon Market

Special activities:

- IETA and World Bank Carbon Finance Exhibition

Sunday, December 4:

Canada Pavilion:

- International Carbon Market

Special activities:

- IETA and World Bank Carbon Finance Exhibition

Monday, December 5: *Carbon Finance Day*

Canada Pavilion:

- Public Works and Government Services Canada - Sustainable Development in Action

Stage:

- Activities TBC – Carbon Finance Day

Special activities:

- IETA and World Bank Carbon Finance Exhibition

Tuesday, December 6: *Arctic Day*

Canada Pavilion:

- Indian and Northern Affairs Canada - Arctic Day - Perspectives From the Pole of Change

Stage:

- ENGO : Students on Ice: Arctic Expedition

Climate Village in Action:

- Students on Ice - Arctic and Antarctic expeditions video
- Greenpeace Solar Generation - Greenland Expedition
- Friends of the Earth - Fabrication of small painted murals and ideas for practical climate change actions
- Urban Ecology Centre: Urban planning to reduce GHG Emission
- Virtual exhibition : www.ethiquette.ca

Special activities:

- Concordia University and Canada Mortgage and Housing Corporation - Solar House Tour
Registration at Canada Pavilion (biodiesel buses depart at 10:00 a.m.)

Wednesday, December 7: Consumption and One-Tonne Challenge Theme

Canada Pavilion:

- Environment Canada and Natural Resources Canada – Take the One-Tonne Challenge

Stage:

- Siembra and Canadian Boreal Initiative: Interactive Tree presentation (10:30 a.m.)
- ENvironnement JEUnesse: Autopsie des déchets (11:00 a.m.)
- ENvironnement JEUnesse : Atelier Vélo rébécane (11:15 a.m.)
- Presentation from private sector companies highlighting their efforts to reduce GHG Emissions (2:00 p.m.)
- Presentation from private sector companies highlighting their efforts to reduce GHG Emissions (6:00 p.m.)

Climate Village in Action:

- Students on Ice - Arctic and Antarctic expeditions video
- Équiterre - Responsible consumption twister game
- ENvironnement JEUnesse - Atelier vélo rébécane – Food choices book : L'envers de l'assiette
- La Siembra Co-operative and Canadian Boreal Initiative - Interactive tree and Virtual exhibition

Thursday, December 8: Transportation Theme

Canada Pavilion:

- CSA – Our Satellites Monitoring the Earth

Stage:

- Otesha: Theatre presentation (12:00 noon)
- Presentation from private sector companies highlighting their efforts to reduce GHG Emissions (2:00 p.m.)
- *Université de Sherbrooke: Libre accès aux transports* presentation (4:30 p.m.)
- Presentation from private sector companies highlighting their efforts to reduce GHG Emissions (6:00 p.m.)

Climate Village in Action:

- Otesha - Bike Caravan - Sketch on climate change - Media spot presentation
- ENvironnement JEUnesse – *Rébécane* bike workshop
- Students on Ice: Arctic Expedition
- La Siembra Co-operative and Canadian Boreal Initiative - Interactive tree
- Friends of the Earth - Fabrication of small painted murals and ideas for practical climate change actions
- Equiterre – Cocktail Transport Campaign and Virtual exhibition

Special activities:

- Concordia University and Canada Mortgage and Housing Corporation - Solar House Tour
Registration at Canada Pavilion (biodiesel buses depart at 2:00 p.m.)

Friday, December 9: Clean Air and Energy Theme

Canada Pavilion:

- Environment Canada – Air Quality Day

Stage:

- Equiterre: Energy Efficiency Quiz (10:30 a.m.)
- ENJEU: Greening Entreprises Training (11:00 a.m.)
- Presentation from private sector companies highlighting their efforts to reduce GHG Emissions (2:00 p.m.)

Climate Village in Action:

- Otesha - Bike Caravan - Sketch on climate change - Media spot presentation
- Friends of the Earth - Fabrication of small painted murals and ideas for climate change practical actions
- Canadian Association for Renewable Energy - Kiosk showcasing Tech Solutions and Green Heat
- WWF – Power Switch Interactive Game
- Equiterre – Energy Efficiency Quiz
- KAIROS exhibit: Greening sacred spaces and Virtual exhibition

Special activities:

- Hydro-Québec – Energy Wise Campaign

A World of Solutions – Sponsored Conferences and Events Outside of the Guy-Favreau Complex (November 24 to December 9, 2005)

Thursday November 24 to Monday, November 28

International Youth Summit on Climate Change – Beyond Kyoto – It's Us!: Hosted by a coalition of Canadian youth environmental groups in partnership with the Government of Canada, bringing together 100 young people from Canada and around the world in an effort to foster partnerships and engage the next generation in working to fight climate change. Beyond sharing experiences and learning from their peers, participants in the Summit will develop a formal Youth Declaration on Climate Change that will be presented at the Ministerial Session of the UN Conference. For more information: [Beyond Kyoto website](#), or contact ENvironnement JEUnesse, Emilie Trempe 514-252-3016 Extension: 224, etrempe@enjeu.qc.ca

Friday, November 25

Rendez-vous Citoyen Kyoto: A series of workshops, conference presentations, roundtables and entertainment at the Université du Québec à Montréal (UQAM, 405, Sainte-Catherine East, salle Marie-Gérin-Lajoie (JM-400), station de métro Berri-UQAM). For more info: Coalition Québec-vert-Kyoto, 1-888-819-7330, info@rendez-vous-citoyen-kyoto.org, www.rendez-vous-citoyen-kyoto.org

Saturday, November 26

Rendez-vous Citoyen Kyoto A series of workshops, conference presentations, roundtables and entertainment at the Université du Québec à Montréal (UQAM, 405, Sainte-Catherine East, salle Marie-Gérin-Lajoie (JM-400), station de métro Berri-UQAM). For more info: Coalition Québec-vert-Kyoto, 1-888-819-7330, info@rendez-vous-citoyen-kyoto.org, www.rendez-vous-citoyen-kyoto.org

Sunday, November 27

Montréal 2005: The Day Before: the World is Holding its Breath: Équiterre, in partnership with Climate Action Network Canada, will host this event at 8 p.m. at the **Métropolis** (59 Ste-Catherine St East) bringing together internationally-renowned speakers and performers who have environmental and climate change issues at heart. Performing artists, ENGO representatives and responsible citizens will unite their voices to remind us all that the time has come to make important decisions. For more information: Équiterre, Viviane Maraghi, 514-522-2000 #286, ymaraghi@equiterre.qc.ca, www.equiterre.qc.ca

Monday, November 28 to Friday, December 9

Green Building Exhibit: Open all day in the **Galerie Monopoli** (public passage of the Palais des Congrès). For more info: PWGSC, Joelle Mackenzie 819-934-0250 joelle.mackenzie@pwgsc.gc.ca

Green Building Bus Tours: Bus tours organized by the Canadian Green Building Council and the Ordre des Architectes du Québec to various green buildings in the Montréal area. For more info: PWGSC, Joelle Mackenzie 819-934-0250 joelle.mackenzie@pwgsc.gc.ca or CGBC, Nancy Dunton: 514-846 8904 Nancy@ndunton.com. On-line registration at: <http://www.cagbc.org/chapters/quebec.php> or by phone - Marie-Eve Allaire 514-788-5876 ext. 0

Renewable Energy: Geothermal at CoP11/MoP1: A Geothermal Heat Pump in a lot outside the Conference Center (north-east corner of Viger and Bleury streets) is heating a small Information cabin on Geothermal Energy, providing a first-hand experience on saving energy in a cold climate. For more info: Energy Strategies, Mr. Dominique Neuman: 514-849-4007, energie@mblink.net

Tuesday, November 29

NRCan/RETSscreen: Assessing Clean Energy Project Opportunities: A one day event at the **Marriott SpringHill Suites Select** to increase the awareness of energy stakeholders, both in the public and private sectors, regarding the assessment of energy efficient and renewable energy technologies and to strengthen stakeholder capacity to evaluate, plan, finance and implement clean energy projects. For more information: NRCan/CETC-Varenes, Alexandre Monarque, 450-652-4621, rets@nrcan.gc.ca. **Online Registration only** at: http://www.retscreen.net/ang/11_form1.php

Wednesday November 30 to Saturday December 3

Sciences and Society Forum: Climate Change: Four day Forum on Science and Climate Change at the **Complexe des sciences de l'UQAM** (200 Sherbrooke W., room SH-2800). For more information: UQAM, Katherine Savard, 514-987-3000, ext. 0850, savard.katherine@uqam.ca

Thursday, December 1

UNEP/SWERA and NRCan/RETSscreen: Tools and Information for Renewable Energy Resource Planning: A one day event at the **Marriott SpringHill Suites Select**. The United Nations Environment Programme's (UNEP's) Solar and Wind Energy Resource Assessment (SWERA) project was established in 2000 to develop a global archive of information on renewable energy resources along with tools and services to assist developing countries and project planners to use the information. The event presents these tools and information for renewable energy resource planning. For more information: NRCan/CETC-Varenes, Alexandre Monarque, 450-652-4621, rets@nrcan.gc.ca. Online Registration **only** at: http://www.retscreen.net/ang/11_form1.php

Renewable Solutions – An International Conference on Renewable Energy, Climate Change and CDM: A two-day event (December 1-2) at the **Holiday Inn Select** to create strategies for moving renewable energy forward within the current and future commitment periods using technology transfer initiatives (day 1) and to develop practical recommendations on the future of the CDM (day 2). Clear directives will be delivered to CoP11/MoP1 delegates via two official side events on December 3. For more information: Canadian Renewable Energy Alliance (CanREA) / OneSky, Greg Brown: 250-877-6030, 250-877-6040, greg@onesky.ca

Green Camera: An international short film competition that aims to give filmmakers a unique opportunity to express their views regarding the problems of climate change while stimulating debate on climate change across Canada. Green Camera is open to professional and amateur filmmakers who are asked to submit films that deal with the theme, "Climate change: problems and solutions". **First screening, Sala Rossa**, 4848 Saint-Laurent Blvd. 7:00 p.m. to 9:30 p.m. A selection of the best films submitted to Green Camera will be screened during this convivial evening. As well, awards and honourable mentions will be presented to the best films. Films in French and English. Free admission. For more information: Sébastien Malo: 514-961-8724, coordination@cameraverte.org, www.greencamera.org

Friday, December 2

Renewable Solutions – An International Conference on Renewable Energy, Climate Change and CDM: A two-day event (December 1-2) at the **Holiday Inn Select** to create strategies for moving renewable energy forward within the current and future commitment periods using technology transfer initiatives (day 1) and to develop practical recommendations on the future of the CDM (day 2). Clear directives will be delivered to CoP11/MoP1 delegates via two official side events on December 3. For more information: Canadian Renewable Energy Alliance (CanREA) / OneSky, Greg Brown: 250-877-6030, 250-877-6040, greg@onesky.ca

Sunday, December 4

Call of the Earth: A multi-faith spiritual service on moral, ethical and faith issues related to climate change, 2:00 p.m. to 4:30 p.m. at **St-Joseph's Oratory** (3800 Queen Mary St.). Participants will hear from victims of climate change and global warming in the most vulnerable areas of the planet: developing countries and the Arctic. Children will also play an important role in the celebration. Music, presentations, theatre. For more information: Canadian Religious Conference, David Fines 450-466-7733 or Francine Cabana 514-259-0856, ext. 111, www.crc-canada.org

Monday, December 5

Fourth Municipal Leaders Summit on Climate Change: Three day event (December 5-7) organized by ICLEI– Local Governments for Sustainability in partnership with Metropolis, Federation of Canadian Municipalities, the City of Montreal, UNEP, as well as financial support from the federal government. This summit is at the **Centre Mont-Royal** and brings together 300 municipal leaders and others from around the world, in a forum to highlight successful local initiatives that address climate change, are economically beneficial, and lead to more liveable communities. Contact: ICLEI, Robert Kerr 416-392-0238, rkerr@iclei.org Website for Registration: www.iclei.org

The Climate Leaders Summit (by invitation): Two day event (December 5-6) at the **Fairmount Queen Elizabeth Hotel**. Co-hosted by the Governments of Quebec and Manitoba and The Climate Group, this conference brings together 300 corporate and sub-national leaders, including U.S. state governors, Canadian premiers, technical experts and corporate leaders. The event highlights the winning strategies and initiatives of sub-national governments and corporations and helps make the 'business case' for reducing greenhouse gas emissions. For more info: Ministère du Développement Durable, de l'Environnement et des Parcs, Pascale Labbé 418-649-2400 ext. 5204, leaders@mddep.gouv.qc.ca

Industrial Energy-Related Technologies and Systems (IETS) implementation agreement: At the **Hilton Bonaventure Hotel**. Organized by the International Energy Agency in partnership with NRCan and EC. For more info: NRCan Alain Legault, 450-652-7031 alain.legault@nrcan.gc.ca

Industrial Energy-Related Technologies and Systems (IETS): Two day workshop (December 5 and 6) at the **Biosphère**. Organized by the International Energy Agency in partnership with NRCan and EC. For more info: NRCan Alain Legault, 450-652-7031 alain.legault@nrcan.gc.ca

Tuesday, December 6

Fourth Municipal Leaders Summit on Climate Change: Three day event (December 5-7) organized by ICLEI– Local Governments for Sustainability in partnership with Metropolis, Federation of Canadian Municipalities, the City of Montreal, UNEP, as well as financial support from the Federal Government. This summit is at the **Centre Mont-Royal** and brings together 300 municipal leaders and others from around the world, in a forum to highlight successful local initiatives that address climate change, are economically beneficial, and lead to more liveable communities. Contact: ICLEI, Robert Kerr 416-392-0238, rkerr@iclei.org Website for Registration: www.iclei.org

The Climate Leaders Summit (by invitation): Two day event (December 5-6) at the **Fairmount Queen Elizabeth Hotel**. Co-hosted by the Governments of Quebec and Manitoba and The Climate Group, this conference brings together 300 corporate and sub-national leaders, including U.S. state governors, Canadian premiers, technical experts and corporate leaders. The event highlights the winning strategies and initiatives of sub-national governments and corporations and helps make the 'business case' for reducing greenhouse gas emissions. Industrial Energy-Related Technologies and Systems (IETS): Two day workshop (December 5 and 6) at the **Biosphère**. Organized by the International Energy Agency in partnership with NRCan and EC. For more info: NRCan Alain Legault, 450-652-7031 alain.legault@nrcan.gc.ca

International Carbon Projects Matchmaking Forum: Two day event (Dec. 6 and 7) organized by Enviro-accès at the **Regency Hyatt Hotel (Jeanne-Mance room)** providing Canadian companies with the opportunity to network with proponents of Clean Development Mechanism (CDM) and Joint Implementation (JI) projects. It is a venue to help match project developers with project investors with technology providers, and credit buyers. For more info: Enviro-Access, Normand Gadoury 514-284-5794, ext.25 ngadoury@enviroaccess.ca

740 Bel-Air Inauguration (by invitation): A half-day event that brings visitors to a federal green building, the **740 Bel-Air**. (9:30 a.m. to 12:00 p.m. For more info: PWGSC, Joelle Mackenzie 819-934-0250 joelle.mackenzie@pwgsc.gc.ca

Canadian Coast Guard Ship (CCGS) Amundsen: The Canadian Coast Guard research vessel *Amundsen* was refitted in 2003, and in partnership with Laval University, is now a dedicated platform for Arctic research and raising international awareness of Canadian Arctic science. The *Amundsen* is docked at the Old Port of Montréal to showcase its scientific capabilities. An open house is being held December 6, 7 and 8.

Wednesday, December 7

International Networking Breakfast for official delegations and Forum participants: International business networking breakfast organized by Enviro-Access at the **Regency Hyatt Hotel (Hospitality room, level 5)** to bring together Canadian business and government leaders with official foreign delegations participating in the International Matchmaking Forum and the Montreal Conference. Sponsored by Lavery de Billy and Samson Belair/Deloitte & Touche. For more info and invitations: Enviro-Access, Normand Gadoury 514 284-5794, ext. 25 ngadoury@enviroaccess.ca

International Carbon Projects Matchmaking Forum: Two day event (Dec. 6 and 7) organized by Enviro-accès at the **Hyatt Hotel (salle Jeanne-Mance)** providing Canadian companies with the opportunity to network with proponents of Clean Development Mechanism (CDM) and Joint Implementation (JI) projects. It is a venue to help match project developers with project investors and credit buyers. For more info: Enviro-Access, Normand Gadoury 514-284-5794 ext. 25 ngadoury@enviroaccess.ca

Fourth Municipal Leaders Summit on Climate Change: Three day event (December 5-7) organized by ICLEI– Local Governments for Sustainability in partnership with Metropolis, Federation of Canadian Municipalities, the City of Montréal, UNEP, as well as financial support from the federal government. This summit is at the **Centre Mont-Royal** and brings together 300 municipal leaders and others from around the world, in a forum to highlight successful local initiatives that address climate change, are economically beneficial, and lead to more liveable communities. Contact: ICLEI, Robert Kerr 416-392-0238, rkerr@iclei.org Website for Registration: www.iclei.org

Industrial Energy-Related Technologies and Systems (IETS): Executive meeting (December 7 and 8) at the **Biosphère**. Organized by the International Energy Agency in partnership with NRCan and EC. For more info: NRCan Alain Legault, 450-652-7031 alain.legault@nrcan.gc.ca

TEAM Biobus Tour: The government of Canada through TEAM (Climate Change Technology Early Action Measures) hosts a half day event Wednesday, December 7 2005(1:30 p.m. - 5:00 p.m.). Maximum of forty (40) participants per bus will have the choice of visiting one of two greenhouse gas reduction project sites: Envirogain (manure treatment) or Loblaws (innovative refrigeration system). Both located 45 minutes away from Complexe Guy-Favreau. Transportation to the sites by biodiesel run buses. Registration for tours at Canada Pavilion. For more info: TEAM Operations Office, NRCan, Dianne Rogers 613-943-5913 dianne.rogers@nrcan.gc.ca

Canadian Coast Guard Ship (CCGS) Amundsen: The Canadian Coast Guard research vessel *Amundsen* was refitted in 2003, and in partnership with Laval University, is now a dedicated platform for Arctic research and raising international awareness of Canadian Arctic science. The *Amundsen* is docked at the Old Port of Montréal to showcase its scientific capabilities. An open house is being held December 6, 7 and 8.

Thursday, December 8

Industrial Energy-Related Technologies and Systems (IETS): Executive meeting (December 7 and 8) at the Biosphère. Organized by the International Energy Agency in partnership with NRCan and EC. For more info: NRCan Alain Legault, 450-652-7031 alain.legault@nrcan.gc.ca

Green Camera. An international short film competition that aims to give filmmakers a unique opportunity to express their views regarding the problems of climate change while stimulating debate on climate change across Canada. Green Camera is open to professional and amateur filmmakers who are asked to submit films that deal with the theme, "Climate change: problems and solutions". **Second Screening: National Film Board of Canada Theatre**, 1564 Saint-Denis, **6:30 p.m. to 9 p.m.** The evening will begin with a projection of some of the best films submitted to Green Camera. A panel discussion will then take place on the subject: "Cinema and environmental issues". Panelists include documentary filmmakers Patricio Henriquez, Suzanne Methot and Magnus Isacsson, André Bélisle, spokesman for the Quebec-vert-Kyoto Coalition, and Louise Vandelac, full professor in the Sociology Department at the Environmental Sciences Institute, Université du Québec à Montréal and co-director of the National Film Board documentary *Main basse sur les gènes ou les aliments mutants*. Films in French and English. Free admission. For more information: Sébastien Malo: 514-961-8724, coordination@cameraverte.org, www.greencamera.org

Canadian Coast Guard Ship (CCGS) Amundsen: The Canadian Coast Guard research vessel *Amundsen* was refitted in 2003, and in partnership with Laval University, is now a dedicated platform for Arctic research and raising international awareness of Canadian Arctic science. The *Amundsen* is docked at the Old Port of Montréal to showcase its scientific capabilities. An open house is being held December 6, 7 and 8.

Annex 2

A World of Solutions –Cultural Events (November 26 to December 21, 2005)

You are invited to participate, from November 26 to December 21, 2005, in the numerous activities being held in conjunction with the Conference. We urge you to attend concerts and shows by many talented performers expressing their heartfelt commitment to the environment and the cause of climate change. Look at spectacular photographs, watch amazing movies or sway to the beat of musical performances!

1) NORTH SOUTH EAST WEST LARGE PHOTO EXHIBIT ON THE ENVIRONMENT

Put together by The Climate Group in partnership with the British Council, this thought-provoking exhibition of images by major photographers depicts the impact of climate change on different parts of the planet. Accompanied by messages from political leaders and famous personalities, such as Mary Robinson, Tony Blair, Leonardo Di Caprio and Sir Arthur C. Clarke, the photographs are bound to raise public awareness of climate change.

Date: From November 26 to December 8

Location: Central passageway of the Palais des Congrès,
159 St. Antoine St West, Montréal

2) EXTREME NATURE EXHIBITION

Presented by the Musée du Fjord de La Baie (Québec) in cooperation with the Musée de la nature et des sciences de Sherbrooke and the Department of Canadian Heritage, this exhibition focuses on natural disasters and how living organisms cope with extreme living conditions. The exhibition makes Canadians more aware of extreme natural phenomena, adds to their scientific and historical knowledge, and familiarizes them with some of the rules of public safety. As well, the exhibition is designed to make members of the public more conscious of what they can do to reduce the impact of such changes.

Date: From November 26 to December 8, 2005

Monday to Friday - 8:30 a.m. to 4:30 p.m.

Saturday and Sunday – 10:00 a.m. to 4:00 p.m.

Location: Montreal City Hall, Hall of Honor, 275, Notre-Dame Street East

3) UNDER THE WEATHER INTERACTIVE EXHIBITION

This interactive museum exhibit was developed to offer the visitor a better understanding of the phenomena of climate change. Connecting the metro stations Place des Arts and Place d'Armes, the exhibit guides visitors towards the Guy-Favreau Complex information booths. The exhibit describes the operation and evolution of climate, provides information about the effects of climate warming on the planet and offers realistic solutions to addressing this problem. Hands-on games, models, exhibits and objects to be observed or touched guarantee the visitor learns while being entertained.

Date: From November 28 to December 9

Location: Espace des pas perdus – Place des Arts, Montréal

Developer: Musée de la nature et des sciences de Sherbrooke

4) CLIMATE CHANGE INTERACTIVE MUSEUM EXHIBIT

Across Canada, people are searching for answers to major questions on climate change and its repercussions. This 1000 square foot travelling exhibit allows visitors to understand, in a very entertaining way, how climate change affects them and what they can do to adjust. Visitors of the Salon des métiers d'art (retail craft show) can see what climate change is, to explore the repercussions of an ever-evolving environment and to have fun. Using their own energy, visitors are being able to recharge a hydrogen fuel cell and use it to move forward a scale model. In addition, the Climate Explorer two-seater helicopter allows a "visit" with scientific expeditions on the frozen slopes of Mount Logan in Yukon or in the boreal forest to study forest fires.

Date: From December 2 to 21

Time: Monday to Saturday from 11:00 a.m. to 9:00 p.m. and Sunday from 11:00 a.m. to 6:00 p.m.

Location: Salon des Métiers d'art – Place Bonaventure, 800 De La Gauchetière Street West, Montreal

Developer: Canadian Association of Science Centres, in cooperation with Science North, Science World and Natural Resources Canada

5) CLIMATE CHANGE MINI-FILM FESTIVAL

Planet in Focus presents films on climate change and the environmental impact of climate change. Titles include *The Great Warming*, *Washed Away*; *Tree Rings: Counting the Years to Global Warming*; *The Disappearing Tuvalu*; *The End of The World as We Know It*; *The End of Suburbia* (w. French subtitles); *Wind Over Water*; *L'Erreur boréale* and *L'Homme qui plantait des arbres*. Discussion forums follow the screenings.

Date: December 3 and 4

Time: 9:30 a.m. - 12:00 and 1:30 p.m. - 4:00 p.m.

Location: Cinémathèque québécoise

335 De Maisonneuve Boulevard East, Montréal

Métro Berri-UQAM

A special film screening and concert of *Nanouk of the North*, a 1922 documentary filmed in Canada's Far North by Robert Flaherty. This historical film, now considered emblematic of a bygone era, depicts a people's ability to adapt and find solutions to life's problems in an often hostile environment. Gabriel Thibodeau will provide musical accompaniment for this silent film classic.

Date: December 5 - 8:00 p.m.

Location: Cinémathèque québécoise, 335 De Maisonneuve Boulevard East, Montréal, Berri-UQAM metro station

6) ARTS AND CRAFTS CONTEST (*Vos mains ont du talent*)

For its 50th anniversary, the Salon des métiers d'art du Québec, held December 2 – 21, 2005, at Place Bonaventure, organizes a contest named *Vos mains ont du talent* under the theme: "Awareness of the environment and the urgency to take significant steps to counter the effects of climate changes."

Young people were invited to submit their work by creating something from recycled material or recovered objects. This is in order to increase the population's awareness of the importance of recovery in reducing greenhouse gas and of the effects of climate change in everyday life. In creating original works on the theme of climate change, youth are raising awareness of the importance of simple gestures that promise a brighter future. The delegates to the Climate Change Conference are invited to visit the Salon, not only to examine the award-winning works but also to appreciate the vitality of artistic production in the field of crafts and the great inventiveness of craftspeople.

Date: December 2 – 21

Time: Monday to Saturday from 11:00 a.m. to 9:00 p.m. and Sunday from 11:00 a.m. to 6:00 p.m.

Location: Place Bonaventure, 800 De la Gauchetière Street West, Montréal

7) mkyoto: ELECTRONIC MOSAIC ON CLIMATE CHANGE BY YOUTH AROUND THE WORLD

The Society for Arts and Technology (SAT) presents mkyoto: an animated electronic mosaic, with images, illustrations, digital photographs and videos. The mosaic is a reflection of young people, their ideas and their thoughts about the planetary environmental situation.

The SAT electronic mosaic is being presented at a DJ/VJ Evening held in its offices on Saint-Laurent Boulevard, in Montreal. It will be shown on a Panoscope 360° viewer (a 3-metre-high inverted half-sphere with a diameter of 5 metres), providing an immersive, interactive experience. In June 2005, mkyoto was included in *Wired* magazine's list of the 100 innovations that could change the world.

mkyoto: Web and Electronic Mosaic Project Presentation

Date: November 28 to December 2

Location: Guy-Favreau Complex, 200 René-Lévesque Boulevard West, Montréal

mkyoto: DJ/VJ Evening on Climate Change

Date: December 7, 7:00 p.m. to midnight

Location: SAT, 1195 St. Laurent Boulevard, Montréal

8) EXHIBITION OF ARTISTIC WORKS AND PHOTOS ON ENVIRONMENT

Visitors are invited to appreciate paintings and photographs on the themes of the environment and climate change. They can appreciate how climate change already has an impact on the Canadian environment and the lifestyle of Canada's Northern people.

Works by Edward Burtynsky, a Canadian artist living in Toronto, showcase landscapes permanently altered by human activity.

Date: From November 28 to December 9

Location: Agora of the Montreal Museum of Contemporary Art, 185 St. Catherine Street West, Montréal

Works by Karim Rholem, a Canadian artist living in Montreal, showcases Inuit photographs in the Canadian Far North.

Date: From November 25 to December 9

Location: Passageway of the Palais des congrès, 159 St. Antoine Street West, Montréal

The works of Isabelle Hayeur, a Montreal native, presents stunning photographs of No-man's lands shaped by modern civilizations

Date: From November 25 to December 9

Location: Passageway of the Palais des congrès, 159 St. Antoine Street West, Montréal

A mural composed of drawings and photos by young students from India, whose work is inspired by climate change. Their country is regularly hit by cyclones, tornadoes and other natural disasters.

9) CANADIAN CENTRE FOR THE PRESERVATION OF KNOW-HOW

Canadians are becoming increasingly aware of the impact of climate changes on their quality of life. Arctic communities, for example, are already experiencing impacts, and finding it difficult to maintain their culture, livelihood, health and well-being.

The Department of Canadian Heritage, through the Virtual Museum of Canada (VMC), and Library and Archives Canada (LAC) is using a host of resources to showcase the wealth of culture and expertise created by Canadians from every region as a way to get people to think about these issues. This traditional and intangible knowledge must not only be preserved, but also handed down from generation to generation. Doing so is not only a way to generate continuity and a sense of identity but also a way to constitute a sustainable development resource.

Through the *Virtual Museum of Canada* (www.virtualmuseum.ca) (VMC) Web site, Canadian Heritage Information Network (CHIN) and its 1,110 member museums promote the pooling and safeguarding of Canadian knowledge, heritage, culture, experience and skills. VMC has been using the power of the Internet to bring the wealth and diversity of Canadian heritage to people in their homes, and into schools and workplaces.

The LAC (www.collectionscanada.ca) gives Canadians an easy-to-use single window access to textual material, photographs and other documents that reflect Canada's reality and its cultural, social and political development. Working hand in hand with other libraries and archives, LAC will continue to acquire and preserve Canada's documentary heritage, in all its forms, for current and future generations.

Date: From November 28 to December 2

Location: Guy-Favreau Complex, 200 René-Lévesque Boulevard West, Montréal

10) RICHARD DESJARDINS IN CONCERT

Following on the heels of a successful tour in Canada and Europe, Richard Desjardins is showcasing his latest album release, *Kanasuta*, which focuses on Mr. Desjardins' efforts to protect the forest environment around Lake Kanasuta in the Abitibi region of Quebec. A fervent advocate for environmental causes, Richard Desjardins has long been associated with the preservation of the boreal forest.

Date: December 4, at 8:00 p.m.

Location: Spectrum, 318 St. Catherine Street West, Montréal

11) THE RESPECTABLES PRESENT "LE MONDE À L'ENVERS"

Conscious of social responsibilities, The Respectables are justifiably proud of their role as spokespersons for international **Car Free Day**. Their latest CD highlights their strong commitment to the environment and openly urges people to join in their crusade for a better world.

Date: December 1 at 8:00 p.m.

Location: Métropolis, 59 St. Catherine Street East, Montréal
