

SECTION 3

Environmental Assessment Screening Questionnaire

Organization Name:
Facility Name:
Project Name:
Project Number:

In order to comply with the *Canadian Environmental Assessment Act (CEAA)*, Transport Canada must determine the environmental assessment requirements for all projects that receive funding from the federal government and complete an environmental assessment as required. To assist Transport Canada, this questionnaire must be completed by all applicants and could be used by another separate and independent group to assess the project and determine what steps are required to conduct an appropriate environmental assessment.

Please include enough detail to enable a preliminary assessment to determine if an environmental assessment under CEAA will be required for the project.

Note that an electronic version of this questionnaire is available from Transport Canada's Web site: http://www.tc.gc.ca/vigilance/sep/marine_security/contribution/menu.htm and that submission of this questionnaire in word-processed format is preferred. Typewritten or neatly hand-printed applications will also be accepted.

Please answer all questions, and attach additional sheets if necessary. Submit this questionnaire with all other necessary documentation as described in the Application Guidelines. Retain a copy for your own records.

It is the applicant's responsibility to ensure that the proposed project complies with all relevant federal, provincial/territorial and municipal laws.

Information provided will be dealt with according to the *Privacy Act* and the *Access to Information Act*.

Please submit a completed Environmental Assessment Screening Questionnaire for each project.

Organization Name:			
Facility Name:			
Part A: Project Identification			
1. Project No. and Project Name			
2. Project schedule (giving start and end dates, if known) for construction/ modification phase, operational phase and completion phase.		3. Individual to contact for additional information regarding responses to this questionnaire (name, title, mailing address, telephone, fax number and e-mail address).	
Part B: Environmental Assessment Background			
4. Has a federal or provincial environmental assessment of this project been conducted, or is one in process? (<i>yes or no</i>)		5. If you responded, “yes” to question 4, identify the federal or provincial Environmental Assessment contact person (name, title, mailing address, telephone, fax number and e-mail address). <i>Please attach a copy of any completed environmental assessment report.</i>	
6. In order to avoid duplication of the federal environmental assessment process, indicate whether you will be applying, or have applied, to any other federal department or agency for funding, permits or authorizations.			
<i>Department</i>	Nature of department’s involvement in project	<i>Contact name</i>	<i>Telephone number</i>
(i)			
(ii)			

Part C: Project Information

7. Provide a general description of the project and associated activities.

(For example: The project involves the installation of security fencing and gates at the junction of the wharf deck and apron at City, Province. All fencing will be galvanized chain link and be at 2.4 meters in height and placed along a portion of the south end of the structure. The installation will utilize coring of asphalt and fill and concrete anchoring system to secure the fence.)

8. Describe the location of the project, being as specific as possible and indicating any special location if applicable (e.g. national park, proximity to a National Historic Site).

(For example: The project site is located approximately 6 km north of the Town of Fortune and comprises of storage facilities and a wharf deck. The property is 3.3 ha in area. The adjacent land use is generally industrial/commercial use.)

9. How many metres is this project from a body of water?

Part D: Applicant Declaration

I certify that the above information is correct, complete and represents my understanding of the project.

<i>Date</i>	<i>Signature and title</i>
