

Safety Management Systems Information Session May 10-11, 2006

**The Fairmont Queen Elizabeth
900 Rene Levesque Blvd W
Montréal, Quebec**

The intent of this two-day session is to provide information on the implementation of the safety management systems (SMS) regulations.

Transport Canada is committed to the implementation of SMS in aviation organizations by providing aviation organizations with information on the safety management concept to facilitate its implementation. The expected result of this initiative is the improvement of safety practices fostering a stronger safety culture in civil aviation.

Objectives

The objectives of this information session are to provide:

- basic information on SMS implementation;
- an overview of the SMS and accountable executive regulations;
- an update on exemptions and implementation phases; and
- the opportunity to exchange information and best practices.

Target Audience

The implementation date for various Parts of the *Canadian Aviation Regulations* vary based on the progress of the Notice of Proposed Amendments (NPA) through the regulatory system. The target audience of this session includes airport operators, air navigation service providers, air operators that operate aircraft under Subpart 705 of the CARs and aircraft maintenance organizations that perform maintenance on aircraft eligible to be operated under subpart 705 of the CARs.

Persons responsible for implementing the SMS are encouraged to attend.

Accommodations

The Fairmont Queen Elizabeth is offering a special event rate of \$155 (single or double, plus taxes) for those attending the information session. Reservations at this rate, depending on room availability, must be made by April 7, 2006.

To make reservations, please call 1 800 441-1414 and specify that you are attending the Transport Canada Safety Management Systems (SMS) meeting (Reservation ID: 5TRCA). Internet users may visit their Web site at: **www.fairmont.com** and enter the promotional code GRDOT1.
