

**VISION FOR THE FUTURE**

# Ruisseau de la Brasserie district

## Arts and Romance

The Ruisseau de la Brasserie (Brewery Creek) district, in this vision for the future, is noted for its pleasant pace, a place of water and green space set apart, a centre for arts and romance, for a candlelight dinner and a waterside walk. Theatre, galleries, an arts school, a rich student life, bookstores, antique shops and simple cafés are at the heart of this district. It attracts residents and visitors to its quiet rhythms. The Théâtre de l'Île, the Écomusée, the old industrial remains and new imaginative water features are attractions valued by visitors. Public art and exterior exhibits embellish the green spaces. This area is well connected to Gatineau's downtown and central waterfront, and to the Chaudières Islands making it easily accessible to all visitors to the Capital. A green corridor along the creek allows a pleasant pathway connection to Jacques-Cartier Park and Leamy Lake.

*A romantic  
waterway  
where we can  
stroll, linger,  
and dream.*

*Artist's concept -  
looking north towards  
Montcalm St.*

### **Future programming for the Ruisseau de la Brasserie district**

- A large-scale art or water feature and an interpretive trail encourage visitors to come and enjoy the walk along Ruisseau de la Brasserie.
- Programs and festivals relate to the arts and Francophone culture.
