

Tax Tip

Bank on saving time!

Did you know...

You can save time by paying your personal and/or business income tax through your financial institution's telephone and Internet banking services. Depending on the institution you deal with, you may even be able to schedule post-dated payments.

If this is convenient, you may also want to check with your financial institution if you can file your GST/HST return or remit any balance owing through the Canada Revenue Agency's (CRA) GST/HST-EDI service.

To find out more about these services, visit www.cra.gc.ca/electronicpayments, or contact your financial institution.
