**Standard Batch Reporting Instructions and  
Specification  
Version 3.0.2**

**MODULE 3**

**Includes specifications for large cash transaction reports  
(LCTR)**

### 5.2.2 Detailed Specification Layout (Format Version 03) — LCTR

The following specifications outline the format for large cash transaction reports (LCTR) included in a batch, based on batch report format version 03. All previous batch formats (versions 01 and 02) will no longer be supported upon implementation of version 03.

There are four new fields in Part A (reporting entity report reference number, action code, reporting entity's location number and 24-hour rule indicator) in format version 03 that were not in previous batch format versions. **The content of field A1 is changed.** There are also new values possible for fields B7, D12, and G12. **The order for province and country at fields D7 and D8, D14 and D15, F5 and F6, F10 and F11, G6 and G7, as well as G15 and G16 has been reversed.** Fields B7G, B8H, B8L, C3D, D12E, G12E and G18J have been renumbered. **The order of former fields B8H and B8L has also been reversed.** In addition, the following fields have been eliminated in format version 03: fields A2 to A6, **D11A and G9A.** The following fields in Parts B2 and C of the LCTR have not changed from format version 02, but were different in format version 01: B8H, B12 and C2. Field B2 (time of transaction) **and fields D17 and G17 (individual's occupation) are** different from both previous format versions.

Any report parts that are not applicable do not need to be included. However, all fields in each applicable part must be included, unless you are deleting a report (as explained in Section 3.4 and Part A below). If any fields in applicable parts have no data, pad those fields with spaces or zeros according to the required field format. For additional information about LCTR fields, refer to *Guideline 7A: Submitting Large Cash Transaction Reports to FINTRAC Electronically*.

The layout for each LCTR report will be as follows, with all the parts of each transaction together:

- Part A
- Transaction 1
- Transaction 2, etc. (if there is more than one transaction to include in the report)

You can choose either of the following layouts for the parts of each transaction in your LCTR reports:

- Part B1, Part B2, **Part D or E, if applicable, and any of Parts C, F** or G that are applicable; **or**
- Part B1, Part B2, Part C if applicable, Part F or G if applicable, and Part D or E if applicable.

**Note:** If the LCTR transaction involved a business account and was a night deposit or a quick drop, Parts D, E, F and G do not apply to the report for that transaction.

An LCTR should only contain one transaction, unless it is about two or more cash transactions of less than \$10,000 made within 24 consecutive hours of each other that total \$10,000 or more.

**Part A: Information about where the transaction took place**

This part is for information about you, reporting entity required to report the transaction to FINTRAC. It is also for information about the physical location where the transaction took place. If you need more information about what type of person or entity is a reporting entity, see the series of guidelines prepared by FINTRAC to explain reporting and other obligations.

If you have multiple branch or office locations, the information in this section should be about the branch or office location where the transaction took place. Transactions that happened at different branch or office locations should be reported on separate reports.
