Medical Instructions

The following instructions apply only to

- persons who are members of the family class, specifically the spouse, common-law partner, conjugal partner or dependent child of the sponsor, and whose application for permanent residence is processed at a Canadian visa office;
- their family members.

If you are not a person described above, DO NOT use this form. If you do, the results of your medical examination will not be valid. You will have to undergo a new examination and pay associated fees. If you are a citizen or permanent resident of Canada, you do not need to undergo a medical examination.

If you are a person described above, you and, if applicable, each of your family members must complete your own copy of this instruction sheet. Make enough photocopies for your needs before you start filling the boxes below.

Make an appointment with one of the doctors (also referred to as DMPs) identified on the enclosed list. The DMP will need the Appendix D to complete the appropriate medical forms for yourself and each of your family members undergoing the medical examination. One of these forms, the *Medical Report — Section A* (IMM 1017 EFC), is used to match your medical file to your immigrant file.

When you and your family members (if applicable) go for your medical examination, make sure you bring with you a copy of Appendix D filled in for each person. If you do not or if the boxes on Appendix D are not filled in properly, the DMP will not be able to complete the form IMM 1017 EFC and our Regional Medical Office (RMO) will not be able to review the results of your medical examination, preventing the processing of your application.

If you hand over a properly filled in Appendix D for yourself and each of your family members, the DMP will then complete the appropriate medical forms and send them to our RMO.

The DMP will give you the second copy of the form IMM 1017EFC as proof you underwent the medical examination. You must include this copy with your immigrant application when you send it to your sponsor. This form is vital in order to match your medical and immigration files. Photocopies will not be accepted. If you lose it, you will not be able to obtain a duplicate; you will have to redo the medical examination and pay any associated fees again.

The person examined by the doctor or, if that person is a minor, his or her parent or guardian may be asked to sign the form IMM 1017EFC.

In addition to Appendix D, make sure you and your family members bring along the following items with you:

- passports for yourself and your family members (if applicable), plus a photocopy of the bio-data page of each passport. If a passport is not available, provide an official identity document bearing the photo and date of birth of the family member;
- eye glasses or contact lenses, if you or your family members (if applicable) wear them;
- previous medical report(s), if any. You must tell the examining doctor about all past and present medical problems and conditions, and provide the doctor with any available documentation such as physician's reports, treatment or prescriptions; and
- five recent pictures taken within six months preceding the date of the examination and, where applicable⁽¹⁾, a negative for yourself and, if applicable, your family members (see Appendix C for photo specifications).

⁽¹⁾ Persons living in Bhutan, India, Nepal, Pakistan, the Philippines, Sri Lanka and Vietnam must provide a negative in addition to the five photos.

We will review the medical results to determine whether there are any medical reasons which would prevent you or your family members from coming to Canada.

The DMP will ask you and each of your family members to complete and sign your own copy of the Medical Report — Section B (form IMM 5419) in his/her presence and then proceed with the examination.

The medical examination includes:

- complete physical examination for all family members;
- chest X-ray and a radiologist's report for everyone aged 11 years and over;
- blood test for everyone aged 15 years or over;
- urinalysis for everyone aged 5 years or over;
- HIV testing for everyone aged 15 years or over, as well as for children who have received blood or blood products, or have a known HIV mother.

If your medical results prove satisfactory, they have a validity of one year from the date of examination. Therefore, you should make arrangements to have the date of your medical examination precede as closely as possible the date you will be sending your application and supporting documentation to your sponsor.

If the processing of your application for permanent residence is delayed and we cannot reach a decision about your application before the validity of your medical examination expires, you will be required to do the medical examination again.
