| INTRODUCTION | 1 |
| MANAGEMENT OF THE MEDICAL FILE | 1 |
| ANNEX A - FLOW CHARTS | 3 |

INTRODUCTION

1. All aircrew medicals (initial or re-board) requiring a change in the medical profile (temporary 6 months or longer, or permanent) must be reviewed by Central Medical Board (CMB). The medical file must include a CF2034, CF2088 and CF2033. The medical file is reviewed to ensure:

- a. completeness of testing and documentation;
- b. accuracy; and
- c. appropriate minimum medical standards are being met for the MOC.

Communication with originating facility may be required for clarification or completeness.

2. Based on the information provided, CMB will apply aeromedical judgement and recommend an Air Factor category and/or restrictions.

MANAGEMENT OF THE MEDICAL FILE

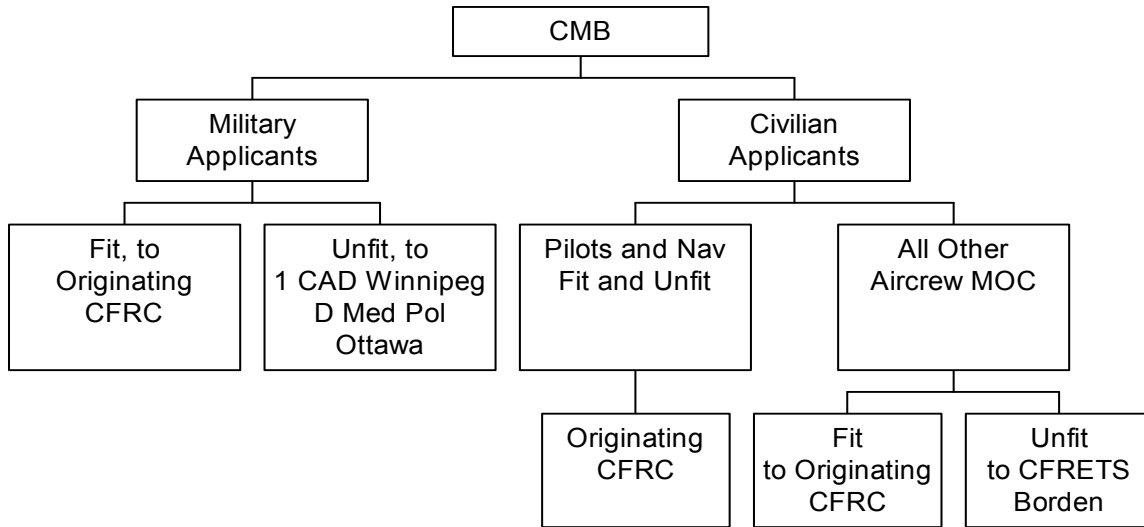

3. All medical files received and reviewed at CMB are forwarded in one of three directions:

- a. Initial Aircrew applicants (Civilian - except Pilots/Navigator – processed as per ref C) received from Canadian Forces Recruiting Group/Canadian Forces Recruiting, Education and Training System (CFRG/CFRETS) Borden or Canadian Forces Recruiting Centres (CFRC)

- (1) if found fit will have a category assigned and then forwarded to the appropriate CFRC.
 - (2) if found unfit, the complete file will be returned to CFRETS Borden.
- b. Initial Aircrew applicants (Military) for the assignment of Air Factors 1, 2, 4, and A3 (Helicop program)
- (1) if fit, documents are forwarded to originating medical unit.
 - (2) if found unfit they will be forwarded to 1 Canadian Air Divisional Surgeon (A1 Div Surg) in Winnipeg for approval prior to routing to Director of Medical Policy (D Med Pol) in Ottawa. Unfit files include:
 - (a) assigning/extending temporary categories of three months or longer; and
 - (b) all permanent categories that fall below the minimum standards for the MOC/Classification, or members with restrictions, i.e. A3 (except Helicop program)
