Alison Farrand, Environmental Specialist  
Applications Business Unit  
National Energy Board  
444 Seventh Avenue S.W  
Calgary, Alberta, T2P 0X8

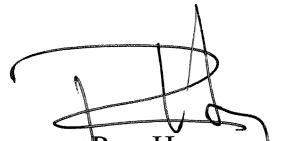

Dear Ms Farrand:

I am writing to confirm that based on the current understanding of the TMX Anchor Loop proposal being developed by Terasen Pipelines Inc., Parks Canada has determined that the project triggers an environmental assessment at the screening level.

Parks Canada may revise this opinion based on future information that could be received regarding this proposal at a later date.

I trust that this information is of interest.

Yours sincerely,

  
Ron Hooper  
Superintendent
