

User Requested Minor Use Label Expansion Program Registrations for June 1, 2001 – July 31, 2001

The User Requested Minor Use Label Expansion (URMULE) Update provides timely information on the latest proposals for minor use label expansion of pesticides that have been evaluated and accepted for registration.

For the following pesticides, a Certificate of Registration has been issued based on a Supplemental Label, making the use legal. Registrants are required to add the new use to the full product label at the next printing. Provincial authorities, in publishing recommendations on the use of agricultural chemicals, may incorporate such acceptable uses in the knowledge that they meet the requirements of the *Pest Control Products Act*. Users must consult the product label as the ultimate authority on whether or not the product can be used to control a specific pest on a specific site, as a product's uses are subject to change.

NOTE: The URMULE Updates are available on the Pest Management Regulatory Agency's Internet site, address provided below. If Internet access is not available, arrangements can be made to receive this publication via facsimile or electronic mail. Please contact the Publications Coordinator at the location provided below.

Vegetables	MRL¹
Propiconazole (Topas 250E – Engage) Registration number 24030 for the control of rust on asparagus	0.1 parts per million (ppm)
Fosetyl-al (Aliette WGD – Rhone-Poulenc) Registration number 24458 for the control of downy mildew on broccoli and bok choy	Broccoli 60 ppm Bok choy 0.1 ppm (60 ppm proposed) ²
Imidacloprid (Impower 60WP – Plant Products) Registration number 25658. Preharvest interval reduction from 3 days to 1 on greenhouse cucumbers	0.1 ppm (0.5 ppm proposed) ²
Linuron (Afolan F – AgrEvo) Registration number 16363 as a tank mix with atrazine and metolachlor for weed control in sweet corn	Linuron 0.1 ppm Metolachlor 0.1 ppm Atrazine 0.1 ppm
Imazethapyr (Pursuit – Cyanamid) Registration number 21537 for weed control in adzuki beans	0.1 ppm
Pirimicarb (Pirimor 50 DF – Zeneca) Registration number 22792 for the control of green peach aphid on spinach in southern Ontario only	0.1 ppm (0.2 ppm proposed) ²
Metalaxyl-M/Mancozeb (Ridomil Gold MZ – Novartis) Registration number 25379 for the control of Phytophthora on endives	Metalaxyl 5.0 ppm Mancozeb 7.0 ppm* *MRL included under ethylenebisdithiocarbamate fungicides

Field Crops	MRL¹
Bentazon (Basagran – BASF) Registration number 12221 as a tank mix with fomesafen for weed control in dry edible beans in the Red River valley of Manitoba only	Bentazon 0.1 ppm (0.5 ppm proposed) ² Fomesafen 0.1 ppm (0.05 ppm proposed)
Dicamba (Banvel II – BASF) Registration number 23957 for the control of Canada fleabane in field corn	n/a
Bacillus thuringiensis kurstaki (Dipel 2XDF – Valent Biosciences) Registration number 26508 for the control of European corn borer on field and sweet corn	n/a

Fruits	MRL¹
Propiconazole (Topas 250E – Engage) Registration number 24030 for the control of mummyberry on highbush blueberry (4 applications in British Columbia)	Blueberries 0.1 ppm (0.02 ppm proposed) Dried blueberries 0.1 ppm (0.15 ppm proposed) ²
Other	MRL¹
<i>Bacillus thuringiensis kurstaki</i> (Dipel 2XDF – Valent Biosciences) Registration number 26508 for the control of leafrollers on ginseng	n/a
Deltamethrin (Decis 5EC – AgrEvo) Registration number 17734 for the control of prairie tent caterpillar, ugly nest caterpillar and fruit tree leafroller on chokecherry shelterbelts	n/a
Carbaryl (Sevin XLR Plus – Rhone-Poulenc) Registration number 19531 for the control of prairie tent caterpillar, ugly nest caterpillar and fruit tree leafroller on chokecherry shelterbelts	n/a
Sethoxydim (Poast Ultra – BASF) Registration number 24538 for the control of weeds in nonbearing orchards and shelterbelts of chokecherry	n/a
<i>Bacillus thuringiensis kurstaki</i> (Dipel 2XDF – Valent Biosciences) Registration number 26508 for the control of fall webworm on orchards and shelterbelts of chokecherry	n/a

Footnotes

- ¹ Maximum Residue Limits (MRLs) have been added to this document for the user's information and convenience. Under the *Food and Drugs Act*, it is prohibited to sell food containing residues of pest control products at a level greater than 0.1 ppm unless a higher MRL has been established in Table II, Division 15, of the Food and Drug Regulations or an Interim Marketing Authorization (IMA) has been issued. In case of discrepancy between this document and the Food and Drug Regulations, information in the latter will prevail. For more information on MRLs and IMAs, please refer to the PMRA URMULE Regulatory Directive (DIR2001-01, Sections 4.2 and 5 (step 5)) or on the Internet at <http://www.hc-sc.gc.ca/pmra-arla/english/legis/maxres-e.html>.
- ² A request for an IMA is being processed to permit the sale of the food containing residues of the active ingredient up to the proposed MRL listed above while the regulatory process to amend the Food and Drug Regulations is completed.
