Importing Commercial Goods Into Canada

How to complete Form B3 when importing commercial
goods

Note

Since Canada Border Services Agency (CBSA) legislation and procedures change from time to time, we recommend that you check with your local CBSA office to ensure that the legislation and procedures described in this publication are still valid.

This guide cancels and replaces the following publications: brochure C-007, *Importing Commercial Goods Into Canada* and insert C-007A, *How to Complete the Form B3 When Importing Commercial Goods*.

La version française de cette publication est intitulée *Importation de marchandises commerciales au Canada*.

Introduction

This publication describes the documents you need to submit to the CBSA to import commercial goods and highlights the information you need from each document to complete Form B3, *Canada Customs Coding Form*. This form is used to account for goods, regardless of their value, for **commercial** use in Canada. We consider commercial use as any “commercial, industrial, occupational, institutional, or other like use.” You will find an example of Form B3 in Appendix III to this publication.

Note

In this publication we refer to a number of CBSA D Memoranda that contain more information on many of the topics we discuss. You can purchase copies of the Memoranda by contacting:

Canadian Government Publishing
Public Works and Government Services Canada
Telephone: (819) 956-4800
Fax: (819) 994-1498

You will find our publications, including D Memoranda, under “Forms and publications” on our Web site at: www.cbsa.gc.ca

Part I

1. Accounting information

To account for commercial shipments, you must present to customs a fully completed accounting package consisting of the following:

- **one copy** of the cargo control document (for exceptions to this requirement, see Memorandum D3-1-1, *Regulations Respecting the Importation, Transportation and Exportation of Goods*, paragraph 31);
- **one copy** of the invoice (see Memorandum D1-4-1, *Canada Customs Invoice Requirements*, for more information);
- **one copy** of Form B3, if presented at an automated customs office, or two **copies**, if presented at a non-automated customs office; and
- other forms, permits and certificates such as remission applications, end-use certificates, and exporter’s Certificate of Origin.

You can present paper copies of these documents or, if we authorize you, transmit this information using electronic data interchange. For more information on this option, contact the Electronic Commerce Unit (toll free) at 1-888-957-7224.

Cargo control document

The transportation company or forwarder will send you a cargo control document to inform you that a shipment has arrived and is awaiting customs clearance. The cargo control document can also be a manifest, a waybill, or other approved document covering the transportation of the shipment.

For more information on the cargo control document, see Memorandum D3-1-1.

Invoice

You must satisfy the invoice requirements outlined in Memorandum D1-4-1 by providing one of the following:

- a commercial invoice prepared by any means (typed, handwritten, or computer prepared) containing all the data listed in Appendix A to Memorandum D1-4-1;
- a commercial invoice prepared by any means that indicates the buyer and seller of the goods, the price paid or payable, and an adequate description, including quantity of the goods contained in the shipment, **together with** a *Canada Customs Invoice* containing the remaining required data; or
- a fully completed *Canada Customs Invoice*.

You can use a commercial invoice only, as described in the second option above, or any other document containing the same information provided on such invoices to support the declared value of commercial goods entering Canada if any of the following apply:

- the value of such goods is less than CAN\$1600;
- the value of Canadian goods being returned has been increased by less than CAN\$1600;
- the goods qualify unconditionally for duty-free and tax-free entry; or
- the goods qualify for the benefits of the concessionary provisions of classification numbers 9954.00.00.00 or 9957.00.00.00 (special classification provisions) or under classification number 9810.00.00.00.

Use either a recap sheet or cross-references to the invoice when Form B3 consists of multiple classification lines.

Recap sheet

You must group goods classified under the same classification number together, and, for each group, show the following information on a recap sheet:

- duty rate, goods and services tax (GST) treatment (i.e., rate or exemption code), and excise tax rate, if applicable;
- total price paid or payable; and
- exchange rate and conversion value in Canadian currency.

The recap sheet must also contain the transaction number and total number of invoice pages. Prepare a separate sheet for each invoice. However, you must summarize the recap sheets so that we can verify the summary against Form B3. In most instances, the total invoiced amount and the total shown on the recap sheet(s) will agree. You have to clearly indicate an acceptable reason for any difference between the recap and invoice totals.

Invoice cross-reference

The cross-reference shows the relationship between each of the invoice lines and pages to the appropriate classification line on Form B3. It consists of:

- the B3 line number;

- the invoice page number;
- the invoice line number; and
- the invoice line value as it appears on the invoice before any additions or deductions to the value.

You have to account for each invoice line. There will be as many references to a particular B3 line as there are lines classified in the invoice.

The invoice cross-reference must also contain the transaction number and the total number of invoice pages.

More information on cross-referencing and invoice recapitulation can be found in Memorandum D17-1-1, *Documentation Requirements for Commercial Shipments*.

Form B3, Canada Customs Coding Form

The instructions on how to complete Form B3 are outlined in Part III of this publication.

2. Document presentation

To help us process and release your goods as quickly as possible, you must present the required documents in the order indicated in Appendix IV. The set designation indicates the destination of each document following our review.

Part II

General information on tariff classification

Introduction

The *Customs Tariff* is divided into 21 sections. For the most part, commodities are arranged in these sections according to economic activity.

Within the 21 sections there are 99 chapters. Chapters are arranged according to levels of processing, with primary commodities classified in the earlier chapters and more technically complex products classified later.

Each chapter begins with a title page. Notes precede certain chapters and define the scope and limits of that chapter. After these notes, you will find the classification numbers of all the products covered by the chapter.

Structure of the classification number

Classification in the *Customs Tariff* is a systematic process. To use this process, it is essential that you understand the structure of the classification number.

In Canada, the classification number consists of ten digits. This ten-digit number is subdivided at various levels to provide greater detail and definition for a product.

Each level is identified as follows:

The first six digits represent the international portion of the classification number and are the numbers that will be used by all countries acceding to the *International Convention on the Harmonized Commodity Description and Coding System*. The last four digits reflect Canadian tariff and statistical requirements.

The structure of the classification number, i.e., by heading, subheading, etc., is what is used to classify your products under the *Customs Tariff*. Each product is first classified with a four-digit number or heading. Then, an appropriate six-digit number or subheading is chosen from within the selected heading. After a subheading is identified for the product, an eight-digit number or tariff item within the subheading must be chosen. Lastly a full ten-digit classification number is chosen. Refer to Appendix V for an example of a page from the *Customs Tariff*.

Chapter 99 special classification provisions

The *Customs Tariff* contains special classification provisions unique to Canada that eliminate or reduce the customs duty rate for qualifying goods under specific conditions. These provisions are listed in the *Customs Tariff* as classification numbers in Chapter 99.

Part III

How to complete Form B3

The example of Form B3 found in Appendix III may be used as a guide to complete your Form B3. The example used in this brochure is a “cash transaction” where the importer pays the applicable duties before customs releases the goods. For information on other options such as release prior to payment and the bonded warehouse program, contact your local customs office.

Each field number of these coding instructions corresponds to a number in the upper left-hand corner of each field on Form B3. For more information, see Memorandum D17-1-10, *Coding of Customs Accounting Documents*.

Header

Field Nos. 1 to 9 are referred to as the “Header” portion of the accounting document. The information in these fields pertains to the shipment as a whole.

Field No. 1 – Importer name and address

In the importer name and address section of this field, indicate the company importing the goods and its address.

In the number section of this field indicate your Business Number (BN). If you have more than one business account, indicate the six-digit account identifier (e.g., RM0001).

To obtain a BN, contact your local tax services office, or call the Business Window at 1-800-959-5525 for service in English, or 1-800-959-7775 for service in French.

Field No. 2 – Transaction number

This is a 14-digit number assigned by customs at the time goods are released. If you have either “release prior to payment” or “uncertified cheque” privileges, you must provide this number in bar-coded format. The transaction number must appear on the customs copy of Form B3 (refer to Appendix IV, “Document Presentation”). You have to clearly write the transaction number on the remaining pages of Form B3 and on the copies of the cargo control documents and invoices.

Field No. 3 – Type

Indicate the B3 type by completing with the letter C, denoting that this document is a final accounting for release of goods after the payment of duties and taxes.

Field No. 4 – Office number

Show the customs office of release for the goods by using the three-digit office number listed in Appendix VI to this publication.

Field No. 5 – GST registration number

If you have entered a BN in field No. 1, leave this field blank.

Field No. 6 – Payment code

Leave this field blank.

Field No. 7 – Mode of transport

Complete for all shipments valued at greater than CAN\$2500 exported from the United States.

Show one of the following codes:

Air	1
Highway	2
Rail	6
Pipeline	7
Marine	9

Field No. 8 – Port of unloading

For marine shipments valued at greater than CAN\$2500 exported from the United States, enter the three-digit customs office code where your goods were taken off the ship, as listed in Appendix VI to this publication.

Field No. 9 – Total value for duty

You must complete field No. 37 before you complete this field. Add each of the classification line (field No. 37) amounts and show the total to the nearest dollar, in Canadian funds. Do not include decimal point.

On multi-page B3 forms, complete this field on the first page only.

Subheader

Each set of information from field Nos. 10 to 19 is called a “Subheader” and refers to all the shipments for one vendor or seller.

Field No. 10 – Subheader number

Identify each subheader within Form B3. Number the subheaders sequentially and use new subheader numbers only when any of the information in field Nos. 10 to 19 has changed from the first page. When you need a new subheader, you have to complete all subheader fields and not just those which differ from the previous subheader.

Field No. 11 – Vendor name

Show the name of the vendor or consignor of the goods as shown on the invoice. If the goods are invoiced from the United States, complete this field using two lines. On the first line indicate the name of the vendor or consignor, and on the second line put the three-character United States state code and the five-digit zip code. See Appendix VII for the valid state codes. If the goods are invoiced from a country other than the United States but are exported from the United States, indicate the name of the foreign vendor followed by the state code and zip code of the United States exporter. Each new vendor must be shown on a new subheader.

Field No. 12 – Country of origin

Indicate the country where the goods were grown, produced, manufactured, or finished to their present state. If the country of origin of the goods is the United States, indicate the three-character United States state code. Show a two-digit alphabetic code if the country of origin is other than the United States. See the list of country or state codes in Appendix VII.

Show each new country or state on a new subheader.

Field No. 13 – Place of export

Show a three-digit alphabetic state code if the country of export is the United States. If the goods were exported from a foreign trade zone, show the appropriate code number for that zone. Refer to the list of foreign trade zones in Appendix VIII. If the country of export is other than the United States, show the appropriate two-digit alphabetic code. See the list of country and state codes in Appendix VII.

Show each new country, state, or zone on a new subheader.

Field No. 14 – Tariff treatment

Show the tariff or trade agreement under which goods are imported into Canada:

Code	Tariff treatment
1	<i>Commonwealth Developing Countries Remission Orders</i>
2	<i>Most-Favoured-Nation Tariff</i>
3	<i>General Tariff</i>
4	<i>Australia Tariff</i>
5	<i>New Zealand Tariff</i>
7	<i>Commonwealth Caribbean Countries Tariff</i>

8	<i>Least Developed Country Tariff</i>
9	<i>General Preferential Tariff</i>
10	<i>United States Tariff</i>
11	<i>Mexico Tariff</i>
12	<i>Mexico-United States Tariff</i>
13	<i>Canada-Israel Agreement Tariff</i>
14	<i>Chile Tariff</i>
21	<i>Costa Rica Tariff</i>

Note

For NAFTA purposes only, you can use code 10 for the *United States Tariff*, code 11 for the *Mexico Tariff*, or code 12 for the *Mexico-United States Tariff* if you meet the following criteria:

- You imported your goods after January 1, 1994;
- You make a declaration that the imported goods originate from the United States or Mexico; and
- You possess a valid NAFTA Certificate of Origin that covers the goods being imported.

You can also use codes 10 and 11 under the following circumstances:

- You imported your goods after January 1, 1994;
- You are importing certain non-originating textile goods under a tariff preference level (TPL) permit issued by the Department of Foreign Affairs and International Trade, and, in the case of these goods being imported from Mexico, a Certificate of Eligibility obtained from the Government of Mexico; and
- You have a statement certifying that the goods have met the conditions set out in the *Imports of Certain Textile and Apparel Goods from Mexico or the United States Customs Duty Remission Order*.

If these codes are used when the goods are **not** entitled to such tariff treatments, penalties may apply.

Show each new tariff treatment on a new subheader.

You can refer to the *Customs Tariff* for further information on how to apply tariff treatments.

Note

Tariff preference levels are also provided under the Canada-Chile Free Trade Agreement and the Canada-Costa Rica Free Trade Agreement.

Field No. 15 – U.S. port of exit

Complete this field for all shipments valued at greater than CAN\$2500 exported from the United States.

The U.S. port of exit is defined as “the U.S. Customs port at which or nearest to which the land surface carrier transporting the merchandise crosses the border of the United States into Canada, or in the case of exportation by vessel or air, the United States customs port where the merchandise is loaded on the vessel or aircraft which is to carry the merchandise to Canada.”

Refer to Appendix X for a list of U.S. port of exit codes. Show each new port of exit on a new subheader.

Field No. 16 – Direct shipment date

Show the date indicated on your customs or commercial invoice if the currency code is other than Canadian dollars. You can leave this field blank if the currency code is of Canadian dollars.

Enter the month (MM) and day (DD).

Show each new date on a new subheader.

Field No. 17 – Currency code

Show the International Standardization Organization (ISO) codes (e.g., United States = USD) from the list of currency codes in Appendix VII.

The currency code identifies the currency shown in field No. 36.

Show each new currency on a new subheader.

Field No. 18 – Time limit

Complete this field in months if a time limit is applicable, for example, temporary importations.

Show each new time limit on a new subheader.

Field No. 19 – Freight

Complete this field for all shipments valued at greater than CAN\$2500 exported from the United States.

Show, to the nearest Canadian dollar, the total freight charges to transport the goods from the place of direct shipment in the United States to the consignee in Canada.

Complete this on the first subheader.

Field No. 20 – Release date

Leave this field blank.

Field No. 21 – Line

Number this line sequentially each time you assign a classification number. You cannot skip or duplicate line numbers on Form B3, regardless of the number of subheaders.

Field No. 22 – Description

Show all references, such as D-Memorandum numbers, import permit numbers, value and classification ruling numbers, if applicable.

Field No. 23 – Weight in kilograms

Complete this field for all shipments valued at greater than CAN\$2500 exported from the United States by marine or air modes.

Complete only on the first detail line for each transaction.

Show the gross weight of the shipment to the nearest whole kilogram.

Field No. 24 – Previous transaction number

Leave this field blank.

Field No. 25 – Previous transaction line

Leave this field blank.

Field No. 26 – Special authority

Complete on each classification line, if applicable.

If you have obtained permission to import goods under special conditions, i.e., relief of duties, you must show the authority number in the appropriate field. Before you complete an accounting document where special authority is involved, consult Memoranda D17-1-10, *Coding of Customs Accounting Documents*; D8-2-1, *Canadian Goods Abroad*; and D7-4-1, *Duty Deferral Program*.

The benefits of the United States Tariff and the Mexico Tariff, according to the *Imports of Certain Textile and Apparel Goods From Mexico or the United States Customs Duty Remission Order*, may be extended to certain textile and apparel goods that are cut and sewn or otherwise assembled (or woven or knit) in the United States or Mexico from fabric (or yarn or fibre) produced or obtained in a non-NAFTA country. Similarly, the benefits of the Chile Tariff and the Costa Rica Tariff can be extended to certain textile and apparel goods from Chile and Costa Rica. When you present accounting documents for such goods, you must record in field No. 26 the number 98-1456, which is the Order-in-Council number of the NAFTA tariff preference level remission order, or 98-1455, which is the CCFTA tariff preference level remission order. Any refunds in this program are also done through the remission order using the legislative authority of section 115(3) of the *Customs Tariff*.

Field No. 27 – Classification number

Show the correct classification number as indicated in the *Customs Tariff* for each commodity included in the shipment. Put decimal points after each of the fourth, sixth, and eighth digits (e.g., 1234.56.78.90).

Field No. 28 – Tariff code

Complete this field if the conditions specified in Chapter 99 (special classification provisions) of the *Customs Tariff* apply.

Field No. 29 – Quantity

Indicate the quantity of goods being accounted for on Form B3, in the unit of measure required by the *Customs Tariff*.

Leave this field blank if no unit of measure is applicable from the *Customs Tariff* or any excise tax rates.

Field No. 30 – Unit of measure

Indicate the unit of measure code you used to indicate the quantity of goods, as specified in the *Customs Tariff*.

Use only metric alphabetic codes.

Leave this field blank if no unit of measure is applicable from the *Customs Tariff* or any excise tax rates. Refer to Appendix IX for the unit of measure codes.

Field No. 31 – Value for duty code

The value for duty is usually based on the transaction value method of valuation, which requires that the goods are sold for export to Canada, to a purchaser in Canada, and the **price paid or payable** for the goods can be determined. Under this method, the selling price, with certain additions and minus certain deductions, converted to Canadian funds, will be the value for duty. Consult the D13 Memoranda series for further details regarding the use of the transaction value method, or if necessary, one of the alternate methods of valuation.

Use a combination of one of the first-digit code numbers and one of the second-digit code numbers outlined below to indicate the basis on which you determined the value for duty.

First-digit code No. (relationship)	Explanation
1	The vendor and purchaser are not related firms as defined in subsection 45(3) of the <i>Customs Act</i> .
2	The vendor and purchaser are related firms as defined in subsection 45(3) of the <i>Customs Act</i> .
Second-digit code No. (valuation method used)	Explanation
3	Price paid or payable without adjustments (section 48 of the <i>Customs Act</i>)
4	Price paid or payable with adjustments (section 48 of the <i>Customs Act</i>)
5	Transaction value of identical goods (section 49 of the <i>Customs Act</i>)
6	Transaction value of similar goods (section 50 of the <i>Customs Act</i>)
7	Deductive value of imported goods (section 51 of the <i>Customs Act</i>)
8	Computed value (section 52 of the <i>Customs Act</i>)
9	Residual method of valuation (section 53 of the <i>Customs Act</i>)

Example

If the vendor and purchaser are related firms, and the value for duty is the transaction value of similar goods, code 26 is shown.

Field No. 32 – Special Import Measures Act (SIMA) code

Complete for goods subject to an action under the *Special Import Measures Act* (SIMA) and/or a Surtax Order.

Identify the type of SIMA disposition applicable to the goods you are importing, as well as the method of payment, in the following manner:

The first digit will be the SIMA assessment type.

- 1 – Goods are not subject to a finding by the Canadian International Trade Tribunal (CITT) and/or a Surtax Order under the *Customs Tariff*;
- 2 – Goods are covered by a price undertaking offered by all or substantially all exporters of the subject goods and accepted by the Commissioner;
- 3 – Goods are subject to a Preliminary Determination;
- 4 – Goods are subject to a CITT finding. There is **no** amount of anti-dumping duty and/or countervailing duty owing which results in a nil payment;
- 5 – Goods are subject to a CITT finding and/or a Surtax Order. Anti-dumping duty and/or countervailing duty, and/or a surtax amount is payable.

Note

When goods are subject to a CITT finding and/or a Surtax Order and SIMA duty and/or a surtax amount are covered by a remission order, SIMA code 50 should be used.

The second digit will indicate a nil assessment or the method of payment.

- 0 – nil payment
- 1 – cash
- 2 – bond

Field No. 33 – Rate of customs duty

Indicate the applicable rate of duty as specified in the *Customs Tariff* for the relevant classification number.

When both percentage and specific duties apply, indicate the percentage rate of duty on the first detail line. Show the specific rate of duty on the next detail line. Do not complete a line number for this line.

If an additional rate of duty equivalent to an excise duty is applicable, show this rate of duty on the next detail line in this field. Do not complete a line number for this line.

Field No. 34 – Excise tax rate

Indicate, where applicable, the rate of excise tax (or an exemption code) in accordance with the *Excise Tax Act*. If excise tax does not apply, leave this field blank.

Field No. 35 – Rate of GST

Indicate the applicable GST rate or exemption code in accordance with the *Excise Tax Act*.

Field No. 36 – Value for currency conversion

Complete on each classification line by showing this amount in the currency specified on the invoice to a maximum of two decimal places. For assistance in determining the amount to be shown in this field, consult Memoranda D13 series.

Field No. 37 – Value for duty

Complete on each classification line by multiplying the value for currency conversion, calculated in accordance with the valuation method identified in field No. 31, by the exchange rate on the date of direct shipment.

Show the value in Canadian dollars using a decimal point (e.g., CAN\$96.00 is shown as 96.00).

Make your calculations to the cent.

Field No. 38 – Customs duty

Indicate the amount of customs duty (not including provisional, anti-dumping, or countervailing) in dollars and cents separated by a decimal point.

When a percentage rate of Customs duty applies, you can calculate the Customs duty by multiplying the rate of Customs duty by the value for duty. When the rate is based on a quantity or measure of the goods (specific rate), you can calculate duty by multiplying the rate by the quantity.

Field No. 39 – SIMA assessment

When goods are subject to urtax, provisional, anti-dumping, or countervailing duties, show the amount in this field. Show the amount in dollars and cents separated by a decimal point.

Note

These amounts and/or duties form part of the value for calculation of excise taxes except if provisional duty is deferred by bond.

Field No. 40 – Excise tax

Indicate the amount of excise tax payable in dollars and cents, if applicable, on each classification line.

When a percentage rate applies, multiply the excise tax rate in field No. 34 by the sum of field Nos. 37, 38, and 39.

When a specific rate applies, multiply the excise tax rate in field No. 34 by the quantity in field No. 29.

Field No. 41 – Value for tax

Complete on each classification line the value for tax by adding the value for duty shown in field No. 37, plus customs duty shown in field No. 38, plus any SIMA assessment shown in field No. 39, plus any excise tax shown in field No. 40.

Field No. 42 – GST

Indicate the amount of GST payable in dollars and cents, if applicable.

You can calculate the GST by multiplying the rate in field No. 35 by the value for tax in field No. 41.

Trailer

This portion of Form B3 is referred to as the “Trailer” and applies to the whole shipment.

Field No. 43 – Deposit

Leave this field blank on this type of entry.

Field No. 44 – Warehouse number

Leave this field blank.

Field No. 45 – Cargo control number

Indicate the cargo control number as shown in the upper right-hand corner on the cargo control document (CCD) for the shipment being released. If there is more than one CCD to be acquitted by one Form B3B, list all the cargo control numbers on Form B3B, *Canada Customs Cargo Control Continuation Sheet*, and show “B3B” in this field. Attach only one copy of Form B3B to your original Form B3.

Leave this field blank if no cargo control document is required (for more information, see Memorandum D3-1-1, *Regulations Respecting the Importation, Transportation and Exportation of Goods*, paragraph 31).

In the case of postal shipments, indicate the Form E14, *Customs Postal Import Form*, inventory control number in this field.

Field No. 46 – Carrier code at importation

Complete for all shipments valued at greater than CAN\$2500 that you import from the United States by marine or air.

Show the four-character carrier code of the carrier that brought the goods into Canada. This is the first three or four digits of the cargo control number.

Where there are only three digits, as in an air carrier, show the three-character code plus a hyphen.

Field No. 47 – Customs duties

Show the total of each detail line (field No. 38) duty amounts. If there is no customs duties payable, leave blank.

Field No. 48 – SIMA assessment

Complete if an amount of surtax and/or provisional duty, anti-dumping duty or countervailing duty is payable.

Show the total of each of the classification line (field No. 39) provisional duty or SIMA duty amounts and/or the amounts of a surtax, unless deferred by bond as designated by SIMA codes 32 or 52 or covered by a remission order as indicated by SIMA code 50.

Show the total in dollars and cents separated by a decimal point.

If Form B3 has two or more pages, complete only on the last page.

Field No. 49 – Excise tax

Show the total of each of the detail line (field No. 40) excise tax amounts. If there is no excise tax payable, leave blank.

Field No. 50 – GST

Show the total of each of the detail line (field No. 42) GST amounts. Leave blank if there is no GST payable.

Field No. 51 – Total

Calculate the total amount payable by adding the amounts of field Nos. 47, 48, 49, and 50. If you do not have to pay any duties and taxes, show any combination of zeros. Do not leave blank.

Note

If you owe duties and taxes, you can pay by cash, certified cheque, or money order. Providing certain conditions are met, you can submit uncertified cheques for amounts up to CAN\$2500. Credit cards will be accepted for commercial importations up to CAN\$500.

Declaration

Show the name and telephone number of the person making the declaration and the company name.

Date and sign the declaration on the original copy of Form B3.

If Form B3 has two or more pages, complete only on the last page.

Note

The person whose name appears in the declaration must sign the declaration. This person is indicating that the information contained on Form B3 is accurate and complete.

Appendix IX – Units of Measure

Unit name	Code	Unit name	Code
Length			
Millimetre	MMT	Kilogram of Named Substance	KNS
Centimetre	CMT	Kilogram – 90% Air Dry	KSD
Decimetre	DMT	Deciton	DTN
Metre	MTR	Metric Ton	TNE
Hectometre	HMT	Kiloton	KTN
Kilometre	KMT	Number	
Megametre	MAM	Piece	PCE
Area			
Square Millimetre	MMK	Number	NMB
Square Centimetre	CMK	Hundred	CEN
Square Decimetre	DMK	Thousand	MIL
Square Metre.	MTK	Million	MIO
Square Kilometre	KMK	Dozen	DZN
Volume/Capacity			
Cubic Millimetre	MMQ	Score	SCO
Cubic Centimetre	CMQ	Gross	GRO
Cubic Decimetre	DMQ	Great Gross	GGR
Cubic Metre.	MTQ	Number of Packs	NAP
Thousand Cubic Metres	TMQ	Pair	PAR
Million Cubic Metres	HMQ	Dozen Pairs	DPR
Millilitre	MLT	Number of Parcels	NPL
Centilitre	CLT	Number of Sets	SET
Decilitre	DLT	Other	
Litre	LTR	Joule	JOU
Hectolitre	HLT	Kilojoule	KJO
Megalitre	MAL	Watt-hour	WHR
Litre, Pure Alcohol	LPA	Kilowatt-hour	KWH
Hectolitre, Pure Alcohol	HPA	Megawatt-hour	MWH
Weight			
Metric Carat	CTM	Gigawatt-hour	GWH
Milligram	MGM	Watt	WTT
Gram	GRM	Kilowatt	KWT
Hectogram	HGM	Megawatt	MAW
Kilogram	KGM	Kilovolt-ampere	KVA
		Megavolt-ampere	MVA
		Curie	CCI
		Millicurie	MCI

Appendix XI – Automated Customs Information Service (ACIS)

The Automated Customs Information Service (ACIS) is a computerized, 24-hour telephone service that automatically answers all incoming calls and provides general customs information. You can use a touch-tone telephone to hear recorded information on a variety of customs topics such as personal importations, travellers' exemptions, commercial importations/exportations, postal shipments, currency exchange rates, CANPASS, and trade agreements.

The service is available in both official languages. If you call during office hours and need more specific information, you can speak directly to an agent.

If you use a rotary-dial telephone, you cannot hear the ACIS recorded information. However, if you call the ACIS during office hours, your call will be transferred directly to an agent.

You can access the ACIS free of charge throughout Canada by calling 1-800-461-9999. If you are calling from outside Canada, you can access the ACIS by calling (204) 983-3500 or (506) 636-5064. Long distance charges will apply.

For more information on ACIS and system codes that will allow you to go directly to the information you need, see the pamphlet RC4040, *Automated Customs Information Service*, which is available at your nearest customs office.
