

Standards

What every business needs to know

Know what we know

The Standards Council of Canada oversees the country's National Standards System and represents Canada internationally in standards matters. This puts us in a unique position to help you learn what you need to know about standardization.

national
standards
system

◆ **Technical requirements:**

We can tell you about the standards and regulations that apply to your products almost anywhere in the world.

◆ **Testing, certification, registration:**

We have information on the laboratories, certification organizations and registrars that can help you effectively demonstrate conformity to standards.

◆ **Where to go:**

Even if we don't have the answers you need, we probably know where you can get them.

- ◆ articles on influential new standards;
- ◆ trends in international standardization; and
- ◆ developments related to testing, certification and registration.

Information services

Ask us for help

Suffering from information overload? Let our Information and Research Service help you sort it all out. The service features:

- ◆ knowledgeable information officers;
- ◆ a comprehensive resource centre featuring Canada's largest standards library;
- ◆ membership on ISONET, ISO's information network;
- ◆ scopes and tables of contents for some standards collections; and
- ◆ customized research services.

Just e-mail info@scc.ca or call (613) 238-3222.

Make this Web site your partner

At <http://www.scc.ca> you'll find a vast body of standards information, including:

- ◆ ISO 9000/14000 fact sheets and articles;
- ◆ databases of Canadian, foreign and international standards; accredited labs, certification and registration organizations and regulatory information from around the world;
- ◆ standards development forums;
- ◆ news and publications;
- ◆ links to the world's other leading standards sites;

Be Export Alert!

Get advance warning when foreign regulators are changing the requirements that apply to your products. *Export Alert!*, a service of the WTO/NAFTA Enquiry Point, gives you:

- ◆ automatic e-mail notification of proposed regulatory changes in your area of interest;
- ◆ access to the full text of changes; and
- ◆ the opportunity to comment on changes.
