

ERRATUM

Minutes of the Canadian Nuclear Safety
Commission Meeting held on
Thursday June 29, 2006

June 29, 2006

On June 29, 2006, the Canadian Nuclear Safety Commission held a public meeting on the matters set out in the agenda CMD 06-M32. The meeting was held in the Public Hearing Room, CNSC Offices, 280 Slater Street, Ottawa, Ontario.

The following corrections are made to the Minutes of the meeting that were approved by the Commission at its subsequent meeting held on August 16, 2006:

The 7th paragraph has been changed from “As part of its presentation, CNSC staff presented interim status reports on the performance of the Pickering B and Bruce A and B nuclear generating stations (NGS). Mid-term performance reports were requested by the Commission at the time those facilities were relicensed in June 2003 and March 2004 respectively” to “As part of its presentation, CNSC staff presented its interim status report on the performance of the Pickering B nuclear generating stations (NGS). A mid-term performance report was requested by the Commission at the time this facility was relicensed in June 2003.” The correction is necessary because the interim status reports for Bruce A and B will be part of the 2006 Industry Report to be presented in the spring 2007.

In the 22nd paragraph, “four” has been removed from the following sentence: “As a result, four sirens are set to be installed in the Durham region and the towns of Pickering and Clarington.”

A new paragraph has been added following paragraph 60:

The Commission, pursuant to subsection 44(1) of the *Nuclear Safety and Control Act* (NSCA) and subject to the approval of the Governor in Council, made the annexed *Regulations Amending the Nuclear Security Regulations* under the NSCA.

Marc A. Leblanc
Secretary,
Canadian Nuclear Safety Commission

Approved on: September 11, 2006
