# Notice of Hearing

---

September 13, 2006

Ref. 2006-H-115

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing to consider an application by Hydro-Québec to authorize amendments to the operating licence for the Gentilly-2 nuclear generating station, located in Bécancour, Québec.

The proposed amendments pertain to the implementation of the requalification testings of certified shift personnel.

The Commission has determined that a public hearing is not necessary in this case to consider Hydro-Québec's application for amendments to the operating licence for Gentilly-2. The hearing will be conducted by way of written submissions.

Following the deliberations and decision of the Commission on this matter, a *Record of Proceedings, including Reasons for Decision* will be published on the CNSC Web site and made available to the public.

Submissions from CNSC staff and Hydro-Québec have been filed with the Secretariat. The hearing documents (submissions) are not available on-line and must be requested through the Secretariat at the address below:
