

Notice of Hearing

March 10, 2006

Ref. 2006-H-101

The Canadian Nuclear Safety Commission (CNSC) will hold a hearing to consider an application by Ontario Power Generation Inc. (OPG) for a temporary modification to the Operating Policies and Principles (OP&P) of the Darlington Nuclear Generating Station, located in Darlington, Ontario.

One-Day Hearing: March 17, 2006

Place: CNSC Headquarters at 280 Slater Street, Ottawa, Ontario

The proposed temporary modification pertains to the Emergency Coolant Injection System during an outage. This temporary modification would only be applicable while specific maintenance activities are being carried out during the planned Spring 2006 Unit 3 Outage.

The Commission is proceeding with the hearing on the modification to OPG's Darlington OP&P in accordance with Rule 3 of the CNSC Rules of Procedure. The Commission has determined that a public hearing is not necessary in this case.

Agendas and information on the hearing process are available at the CNSC Web site: www.nuclearsafety.gc.ca. Hearing documents (submissions) are not available on-line and must be requested through the Secretariat at the address below:
