

# Arviat 2006

The name "Arviat" comes from *arviq*, the Inuktitut name for bowhead whale. The community is located on the western shore of Hudson Bay, north of Churchill, Manitoba. Arviat's lands and waters are rich in wildlife. The McConnell River Migratory Bird Sanctuary, south of town, is a great place to observe thousands of nesting waterfowl. In the fall, beluga whales are frequently seen in the bays around town and caribou are often spotted near the community.

Arviat is a diverse community where traditional knowledge and values are maintained in harmony with practical economic development. Through projects, such as a video to promote tourism, and an arts and craft centre for export of Inuit art. Arviat residents use their cultural strengths to develop the local economy.

For more information about Arviat and its attractions, visit the Nunavut Handbook website at: <http://www.arctictravel.com>.

**Getting There:** Flights to Arviat, arrive and depart every day via Rankin Inlet. Air service is operated by either Calm Air or Kivalliq Air. Calm Air and Kivalliq Air also operate a flight from Winnipeg to Arviat, via Churchill. Please check with the airlines for schedule changes.
