

National Adaptation Framework

Record of Decision

It is proposed that Ministers of Energy and the Environment:

- Approve the National Climate Change Adaptation Framework
- Direct officials to develop a more detailed implementation plan based on the following elements of the National Adaptation Framework and report on results and actions to a Joint Meeting of Ministers of Energy and Environment in 2003:
 1. Raise awareness of adaptation;
 2. Facilitate and strengthen capacity for coordinated action on adaptation;
 3. Incorporate adaptation into government planning processes;
 4. Promote and coordinate research on adaptation;
 5. Support networks to share knowledge; and,
 6. Provide methods for adaptation planning.
