<i>Text / Énoncé complet :</i>	<p>I request documents from within your department related to the linguistic classification of jobs. I want to gain insight into the process of determining which jobs will be classified French Essential, English Essential, Bilingual Imperative and Bilingual Non-Imperative- what drives that process, and how conflicts are resolved.</p> <p>To this end, I wish to see documents that show how your department goes through the process of determining how positions are classified. I want to see how employees have input into the process of classifying or re-classifying jobs. I want to see what criteria are used or what process is used to decide upon a job's classification. I want to see how policies and practices or directives from above affect departmental human resources decisions about language.</p> <p>The kinds of documents I expect to see are memo's, discussion papers, directives, emails or other correspondence, meeting minutes, or any other document that discusses the linguistic classification of positions or how the linguistic classification of jobs affects this department. You will note that I am not asking for reams of postings and correspondence related to each posting. I would however, expect that some references to postings may be included in the correspondence, especially if someone complains that a certain posting hasn't been classified properly.</p> <p>The documents should go back as far as January 1, 2002 to the present</p>
