

DIRECTORY STRUCTURE FOR CURRENT RESEARCH PDF FILES

Storing final PDF files for Current Research

This is the basic structure which will be used for storing all of the final PDF files.

V:/CR_PDF

Directory contains all final PDF files used for “free” viewing on the web, and final PDF files used to create the CD.

WEB:

Directory for all PDF files used as “free” viewing on the web.

CD_ROM:

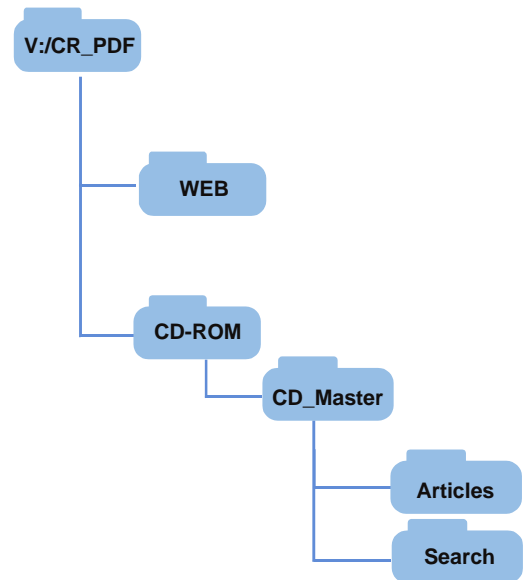

Directory for all PDF files used to create the CD_ROM version.

Articles:

The secure PDF files go into this directory.

Search:

Using Acrobat 5 catalogue, an index of all PDF files is prepared. The search command allows you to perform a search on indexed PDF documents from the Articles folder.
