THIS GUIDE

provides the basic information you need to plan your group's field trip to Canada's Capital. It presents a snapshot of the various programs

available to help you decide which aspects to include in your educational trip. The first section of the guide describes programs offered by the National Capital Commission (NCC). The second section provides information about programs available through the various national museums and other institutions in Canada's Capital Region. The map on the opposite page indicates the locations of the various attractions described in this guide.

If you would like to participate in three or more programs, you may wish to take advantage of our itinerary planning service (available for programs identified with this symbol ). The service can reserve guided or non-guided tours for groups of 20 or more. It charges no administration fee for an itinerary of NCC programs, and a \$40 administration fee for other Capital programs. The last page of the guide provides a form you can fill out to assist you in using our reservation service.

Our planning and reservation service can also provide information and recommend activities to help introduce young Canadians to the symbolic sites and attractions in Canada's Capital Region. Log onto the NCC website (www.canadascapital.gc.ca/education) — it offers interactive, online youth programs that are innovative and fun!

A TULIP LEGACY

This interpretation program is set in Commissioners Park at Dows Lake among the Capital's most spectacular display showcasing 300,000 tulips! Your students will discover more about the renowned spring celebration and floral pageantry, all derived from the first Dutch "Gift of Tulips," which lends a unique character to the Capital.

CAPITAL INFOCENTRE

When visiting the Capital, your students will enjoy a unique experience at the Capital Infocentre. Located across from Parliament Hill, close to several attractions, the Capital Infocentre offers a teaching program called "A World-Class Capital." This multimedia program showcases the history and treasures of our Capital, and traces how it evolved to become a city of the 21st century! Well-trained guides will lead young people on an interactive discovery of their national Capital (maximum of 60 people in each group). The program is intended for students in Grades 5 to 8 in Ontario, or Elementary 5 to Secondary 2 in Quebec. The program covers several aspects of their curriculum, such as history, geography, language arts, citizenship and science.

CANADA'S CAPITAL WALKING TOURS

See how Canada's Capital evolved from a rough-and-tumble town into a world-class city in the walking tour, "The Making of a Capital." The adventure begins at the Capital Infocentre (across from Parliament Hill), where your group will set off to explore numerous sites and symbols that showcase Canadian history and achievements. A descent along the Rideau Canal locks near the Château Laurier gives students an up-close appreciation of this engineering marvel. A visit to Bytown Museum will help your students discover how Bytown grew to become Canada's Capital.
