

BY-LAW NO. 7

EMERGENCY MEASURES PLAN

This plan was prepared in conjunction with the Provincial Emergency Measures Organization.

In our increasing complex and technological society, peace-time emergencies of a man-made nature are on the increase to add to the natural emergencies that man has always faced.

Since the initial response to such emergencies is almost always at the Municipal level, it is essential to the effectiveness of the plan, that all concerned, elected and appointed Municipal Officials and employees be made aware of, and be prepared to carry out, their responsibilities and duties in emergencies requiring its implementation.

It is no less important that the Federal, Provincial and voluntary agencies having commitments herein, be similarly prepared and are kept aware of any changes.

This plan has been approved by the Village of Cambridge-Narrows as By-Law No. 7, thereby giving legal authority to the Mayor and Council for certain measures that may need to be taken to deal with an emergency.

It will be exercised annually for everyone's benefit, although, we sincerely hope that we may never have to use it.

Leslie Robertson

GENERAL

The Village of Cambridge-Narrows recognizes its responsibility for planning to meet emergency situations which may endanger life and property in this Municipality.

AIM

The aim of this plan is to designate responsibilities and to detail the immediate actions to be taken by certain individuals, Municipal services and voluntary agencies in an emergency.

DEFINITION

An EMERGENCY is defined as any occurrence or anticipated occurrence which endangers lives or property, which cannot be dealt with by normal Municipal services.

AUTHORITY

This plan is authorized under:

1. Province of New Brunswick Emergency Measures Act 1978, and
2. Village By-Law, NO. 7, dated 1998.

IMPLEMENTATION

The Plan may be put into effect in part or in full by the Mayor or the Municipal Emergency Measures Director, when required.

If the emergency escalates to a point where further powers are required, a Declaration of Local Emergency may be made in accordance with Section 11 (2) of the NB EMO Act 1978. Any power so conferred therein may then be used to combat the emergency.

DIRECTION AND CONTROL

The Mayor, as head of the Municipality, is responsible for control of operations.

The Director will act on behalf of the Mayor and Council, as instructed. Unless it is otherwise ordered, the senior police officer present at the scene of any disaster, will be in charge of operations there.

EMERGENCY MEASURES PLANNING COMMITTEE

This Committee will comprise: the Emergency Measures Director, who will chair meetings; heads of Municipal services (see Annex 1); representatives of the Provincial Department of Health,

Department of Social Services and Department of Municipal Affairs (District EMO Co-ordinator); Canada Manpower and Voluntary Agencies. The committee will act under the Director to provide co-ordination of emergency measures.

EMERGENCY OPERATIONS CENTRE (EOC)

All disaster operations will be controlled and coordinated from the EOC which will be located in the Village Office.

RESPONSIBILITIES

The Director will be responsible for:

1. Co-ordination disaster planning
2. Directing operations from the EOC

The Police Department will be responsible for:

1. Alerting the Director and Hospital
2. Providing an "On-Site Commander" at the disaster scene
3. Police Services
4. Assistance to other services

The Fire Department will be responsible for:

1. Fire fighting
2. Rescue from buildings and wreckage
3. Assistance to other services concerning the cut off and restoration of utilities when deemed necessary
4. Provision of water for emergency purposes
5. Provision of water for emergency purposes when required

The Department of Transportation (DOT) will be responsible for:

1. Clearance of debris and wreckage
2. Assistance to other services

The Emergency Communications Service will be responsible for:

1. Communications between the EOC, hospital and the disaster scene
2. Providing one telephone operator and two messengers at the EOC
3. Receiving and sending messages at the EOC
4. Maintaining a pool of radios on call

The Emergency Transport Service will be responsible for:

1. Provision and control of emergency transportation (except specialized vehicles used by Fire, Hospitals and Police)

The Emergency Information Service will be responsible for:

1. Obtaining and collating information
2. Disseminating warnings to the public
3. Providing factual information to the news media
4. Assisting in the preparation of information bulletins
5. Arranging for radio broadcasts for volunteers
6. Assistance to other services as required

The Supply and Administration Service will be responsible for:

1. Procuring, allocating and distributing any necessary goods and services not available from Municipal resources
2. Maintaining records of purchases and services for consolidation after the emergency
3. Control of resources in short supply
4. Administration of EOC

The Emergency Health Services (N.B. Dept. Of Health) will be responsible for:

1. Ensuring continuity of health service
2. Obtaining additional supplies and equipment
3. Maintenance of community health
4. Advising the public on precautions to be taken to protect health

The Emergency Social Services (N.B. Dept. Of Social Services) will be responsible for:

1. Providing accommodation for people evacuated from their homes
2. Providing emergency clothing when required
3. Feeding evacuees and emergency workers
4. Providing personal services for those in need

The Emergency Manpower Service will be responsible for:

1. Maintaining a source list of local manpower
2. Arranging for registration and allocation of volunteers
3. Providing specialists as required

ALERTING

Two stages of alert will apply as follows:

1. **Full Alert** - which will be notified via the fan-out at Annex "A".
2. **Partial alert** - only those needed to handle the incident will be called to the headquarters by the Director. Others may be placed on stand-by.

Anyone learning of an emergency situation should immediately contact the local Detachment of the R.C.M.P.

It is the responsibility of the N.C.O. I/c to ascertain the details of the event and to decide whether, in his opinion, it can be handled by normal Municipal services or not. If he decided that it cannot, the Director or alternate will be alerted and informed of the situation.

If the Director decided that the incident would best be handled through the Disaster Headquarters, "Full Alert" fan-out will be activated.

In the event that only "Partial Alert" is required, the Director will call to headquarters only those who will be needed.

ASSEMBLY

When alerted, those heads of services, whose place of duty is at the EOC, will go there and report to the Director on arrival. Where a head of service's place of duty is other than the EOC, his representative will report to the Director. All operational instructions from the Director will be given to service heads or their representatives at the EOC.

MUNICIPAL SERVICES

Police and Fire Departments have a 24 hour duty system and are alerted separately under existing arrangements which do not require to be changed as they do not conflict with this emergency plan.

FAN-OUT INSTRUCTIONS

When in an emergency situation the activation of the EOC is necessary, personnel will be notified via the Fan-out Chart at the Annex "A".

On receipt of an "EMERGENCY" call, the recipient will put the Standing Operating Procedures (SOP) of this group into practice.

If he is to notify another person on the Fan-Out Chart and cannot reach that person, he must assume the responsibility for alerting the next in line. For example, if number 4 cannot reach Number 6, Number 4 must call Number 8, and report to the Director on arrival at the EOC that Number 6 has not been alerted.

NOTE: Pertinent Telephone Numbers are listed in Appendix 1 to Annex A.

VILLAGE MAINTENANCE - DOT
STANDING OPERATING PROCEDURES

1. All staff on hearing of an alert, will immediately contact their supervisor and carry out any instructions they receive. If the supervisor cannot be contacted, staff will go to their normal place of employment for instructions.

2. The Road Department (DOT) will provide:

- I) Barricades and Flashers at the site as requested by the RCMP and / or Fire Dept.
- ii) Municipal vehicles and DOT equipment together with operators / drivers as requested.

They will control sandbagging, pumping and snow clearing operations as applicable to the situation requirements.

They will arrange for clearance of debris as required.

3. The Building Inspector and a Councillor will give advice to the EOC regarding the structural safety of all buildings affected by the incident.

They will arrange for, or conduct, such tests as are necessary to determine the degree of hazard existing in buildings from explosives, inflammable or toxic agents in conjunction with other agencies involved.

VILLAGE MAINTENANCE PLAN**ROLE**

1. To operate a maintenance service and equipment in support of emergency responses.

ORGANIZATION

2. The Councillor in charge of roads and the Maintenance Foreman will assume the overall road departmental authority. The Building Inspector and a Councillor will assume the overall authority for all buildings. All staff will be available for work when required.

METHOD

3. On notification of an emergency situation, the Foreman will go to the EOC for briefing and will himself then go to the scene and find out how his services can be of assistance. After making initial arrangements, he will report to the Director at the EOC and will then return to the Village Office or the scene from where he will provide any assistance required. Requests for assistance will be passed to him via radio communication.
4. Standing Operating Procedures are to Appendix 1.
