

04/05 VICTIM SERVICE PROGRAM FUNDING ALLOCATION BY COMMUNITY

Victim Service Programs provide victims of crime and their families with emotional support, practical assistance, information and referrals. There are two types of Victim Service Programs: Police-based and Community-based. Police-based Victim Service Programs serve victims of all types of crime and also assist the police and community in situations where there are multiple injuries and deaths. Community-based Victim Service Programs serve victims of family and sexual violence and include programs for ethno-specific and diverse communities, and programs for Aboriginal peoples.
