

## **Unit Identification Course**

**Course Sponsor:**

Office of Emergency Services, Centre for Emergency Preparedness (CEPR), Health Canada and (Province/Territory)

**Target Audience:**

Candidates from the provinces/territories that are required to act as custodian to maintain the NESS supplies in their jurisdictions.

**Participant Restrictions:**

None

**Course Description:**

NESS orientation presentation providing an overview of the management of the stockpile including the types of units and supplies, inventory control, distribution warehousing, federal legislation, policy, standards and guidelines.  
Included in the course is a tour of the warehouse to view the units, explain the function and module component concept of each unit maintained in the NESS program.  
Hands on training of the units and specific components provide the students with an understanding of the box identification, inventory procedures and storage requirements.

**Course Objectives:**

To provide selected candidates from the provinces/territories with the knowledge and techniques required to act as custodian to maintain the NESS supplies in their jurisdictions.

**Prerequisite:**

Candidates are to have responsibility as custodian for NESS supplies in their jurisdictions.

**Type of Instruction:**

Classroom: lecture, discussion  
Hands on: ID units, perform inventory

**Class Size:**

Maximum 6

**Course Location:**

Central delivery, the training will be provided at the Office of Emergency Services Depot, Ottawa, Ontario

**Course Availability:**

Dates and locations to be determined upon request.

**Cost:**

TBD
