

NOTE: The Yukon RCMP has changed over to a new database management system and software. These publications will be suspended indefinitely pending re-establishing the data.

Highlights

The statistics included in this publication are derived from analysis of occurrence reports created and maintained by Yukon detachments of the Royal Canadian Mounted Police (RCMP). Occurrence reports contain information on all official RCMP activities, in particular investigations of reported criminal activity. In compiling these crime statistics, the Bureau has concentrated on incidents reported by the RCMP that represent offences under Canada's Criminal Code or Drug Statutes. See the definitions below and on page 4 for more information. Data for 2002 are finalized, while 2003 data are preliminary.

In the fourth quarter (October-November-December) of 2003 there were 2,057 Criminal Code and drug incidents reported in the Yukon. This is a decrease of 10.4%, or 239, from the fourth quarter figure in 2002 (2,296). Comparing the fourth quarter of 2003 with the fourth quarter of 2002 shows that the number of violent incidents in the Yukon decreased by 58, from 331 in 2002 (Q4) to 273 in 2003 (Q4). The number of property incidents increased by 24 from 490 in 2002 (Q4) to 514 in 2003 (Q4); other Criminal Code incidents (excluding traffic) decreased from 1,314 in 2002 (Q4) to 1,106 in 2003 (Q4); criminal code traffic incidents increased from 122 in 2002 (Q4) to 125 in 2003 (Q4); and the number of drug incidents remained the same at 39 in 2002 (Q4) and 2003 (Q4).

Reported Criminal Code and Drug Incidents, Yukon, Fourth Quarter 2002 & 2003

Note:

The Yukon RCMP has recently changed over to new a database management system and software. Therefore, our next release of Crime in the Yukon, First Quarter 2004, will be delayed by several months. We apologize for any inconvenience.

Violent incidents include offences that deal with the application, or threat of application, of force to a person. These include homicide, attempted murder, various forms of sexual and non-sexual assault, robbery, and abduction. Traffic incidents that result in death or injury are included under Criminal Code traffic incidents.

Property incidents involve unlawful acts with the intent of gaining property but do not involve the threat or use of force against an individual. Examples of property crimes are breaking and entering, fraud, and possession of stolen goods.

Other Criminal Code incidents involve the remaining Criminal Code offences that are not classified as violent or property incidents (excluding traffic). Examples are property damage, bail violation, breach of probation, disturbing the peace, arson, prostitution, and offensive weapons.

Criminal Code traffic incidents include dangerous operation of motor vehicles, impaired operation of motor vehicles, failure to provide breath or blood sample, failure to remain at the scene of an accident, and driving while prohibited.

(p) = preliminary; ** = Incomplete year;

Note: Refer to page 4 for explanation of area coverage

Comparing the preliminary number of reported Criminal Code and drug incidents in the Yukon in the fourth quarter of 2003 with the fourth quarter of 2002, shows that the number of incidents in Whitehorse decreased by 62, or 4.1%. Watson Lake had a more dramatic decrease, having 210 incidents in the fourth quarter of 2003 compared with 332 in the fourth quarter of 2002. This is a decrease of 122 incidents or 36.7%. Dawson City had a slight increase over the same period, going from 56 incidents in the fourth quarter 2002 to 61 in the fourth quarter of 2003. This was an increase of 5 incidents or 8.9%.

*Due to the small numbers of incidents in the smaller communities, the percentage changes may vary widely from one period to another:

Reported Criminal Code and Drug Incidents by Quarter, Yukon

Definitions

Classification of Criminal Code Incidents

Criminal Code incidents are sub-divided into four major groupings: (i) violent incidents; (ii) property incidents; (iii) other Criminal Code incidents (excluding traffic); and, (iv) Criminal Code traffic incidents.

Violent incidents include offences that deal with the application, or threat of application, of force to a person. These include homicide, attempted murder, various forms of sexual and non-sexual assault, robbery, and abduction. Traffic incidents that result in death or injury are included under Criminal Code traffic incidents.

Property incidents involve unlawful acts with the intent of gaining property but do not involve the threat or use of force against an individual. Examples of property crimes are breaking and entering, fraud, and possession of stolen goods.

Other Criminal Code incidents involve the remaining Criminal Code offences that are not classified as violent or property incidents (excluding traffic). Examples are property damage, bail violation, breach of probation, disturbing the peace, arson, prostitution, and offensive weapons.

Criminal Code traffic incidents include dangerous operation of motor vehicles, impaired operation of motor vehicles, failure to provide breath or blood sample, failure to remain at scene of an accident, and driving while prohibited.

Most Serious Offence

The 'incident' is the basis for counting reported crime. An incident is the set of connected events usually constituting an occurrence report. National data compiled by Statistics Canada classify incidents according to the most serious offence occurring in the incident (generally the offence which carries the longest maximum sentence under the Criminal Code of Canada). All statistics in this report count all actual incidents, not just the most serious offenses.

Counting Incidents

For violent crimes, a separate incident is recorded for each victim. If, for example, one person assaults three people, then three incidents are recorded. If three people assault one person, only one incident is recorded. For non-violent crimes, one incident is counted for every distinct or separate occurrence. Robbery is one exception to this rule. Robbery is categorized as a violent crime. Unlike all other violent offences, one occurrence of robbery is equal to one incident, regardless of the number of victims.

Thus, the total number of incidents is not a census of all violations of the law that come to the attention of police. Rather, it is equal to the number of victims of violent crimes (other than robberies) plus the number of separate occurrences of non-violent crimes (and robberies).

'Actual' and 'Unfounded' Incidents

When a crime is reported to the police, the incident is recorded as a 'reported' incident. Police then conduct a preliminary investigation to determine the validity of the report. Occasionally, crimes reported to the police prove to be unfounded. Unfounded incidents are subtracted from the number of reported incidents to produce the number of 'actual incidents.'

Coverage of Yukon RCMP Detachment Areas

Carcross includes Tagish and Jake's Corner.

Haines Junction includes Burwash Landing, Destruction Bay, and Champagne.

Mayo includes Stewart Crossing, Elsa, and Keno.

Teslin includes Johnson's Crossing.

Watson Lake includes Upper Liard, 2 & 2-1/2 Mile Villages, and Rancheria.

All others self-explanatory.
