

Energy, Mines and Resources Fact Sheet

EMR's mandate is to responsibly manage and develop Yukon's land based natural resources.

Our Vision:

The Department of Energy, Mines and Resources (EMR) has a vision of a healthy and sustainable resource sector, developed and managed in partnership with Yukoners, as a key contributor to a prosperous and competitive Yukon economy.

Our Mission:

The department's mission is to effectively and responsibly manage and support the development of the Yukon's natural resource wealth for the benefit of all Yukon people, now and in the future.

Responsibilities:

The Department of Energy, Mines and Resources is responsible for:

- managing the Yukon's natural resources;
- integrating resource and land uses;
- promoting investment in and responsible development of the Yukon's mineral, energy (including oil and gas, and pipelines), forestry, agriculture and land resources;
- providing strategic leadership for natural resource policy and planning; and
- implementing an orderly and smooth transfer of the Department of Indian and Northern Development's (DIAND) resource management programs.

Energy, Mines and Resources

Services

The following are a sample of services EMR provides to our clients:

- provide land applications, copies of maps and lists of available lots for sale in Whitehorse and the communities;
- assist with the land application process, policies and procedures;
- administer the Yukon Mining Incentives program, the Assay Coupon program and the Mineral Exploration Tax Credit;
- publish and distribute new geoscience information;
- issue permits to harvest timber;
- issue and maintain mineral titles;
- sell claim maps;
- house the Yukon's largest collection of scientific resources (EMR Library);
- issue and inspect timber and burning permits;
- work to promote northern pipelines;
- support the oil and gas industry through education and training;
- research mitigation and the prevention of environmental problems related to mining and mineral exploration (MERG); and
- run the annual Master Gardener's course.
