Eagle Plains Hotel • Free

Travelling in comfort - protecting the environment

This guide will help you find dump stations for your black and grey water as you travel Yukon's adventure highways in the comfort of your RV.

You're here to experience some of the world's most outstanding wilderness areas, so we know you'll agree that lakeshores, roadsides and gravel pits are not the right places to dump your holding tanks.

Dumping on the ground spoils the scenery, contaminates wilderness ecosystems and threatens human health. That's why it's against the law.

If you see someone dumping any place but a dump station, please call the Turn-in-Polluters hotline at 1-800-661-0525 to report the incident.
