

YUKON BUSINESS DIRECTORY

Listing of businesses by category

YUKON BUSINESS DIRECTORY ONLINE:
www.economicdevelopment.gov.yk.ca

INTRODUCTION

The Yukon Business Directory is an online database of Yukon businesses, local governments, community associations and non-profit groups. It is a valuable Internet marketing tool that publicizes Yukon products and services to a larger global marketplace and helps consumers find those products and services.

The Yukon government's Department of Economic Development developed the Business Directory, which is accessible electronically through the web site at www.economicdevelopment.yk.ca. The Bureau of Statistics gathered the information through a Yukon-wide business survey completed in 2003. The information is updated when individual businesses submit changes or new information.

The Business Directory is not an exhaustive list of Yukon services and products. It comprised of information the users provided to the department and permitted the government to publish.

For more information, or to add or change a listing visit www.economicdevelopment.gov.yk.ca or call 867-667-7014
