## Land use permits

*This fact sheet explains the steps you must take if you want to temporarily use or conduct work on Yukon land.*

### Introduction

You need a Land Use permit if you want to do the following kinds of activities on Yukon land:

- site clearing or earth work;
- constructing a new road, trail or access;
- clearing or installing a utility right-of-way;
- quarrying or extracting aggregate;
- conducting geo-technical or hydrological studies;
- temporarily using or occupying Yukon land (such as a construction camp); and
- oil and gas and seismic activities.

Other types of activities generally do not require a Land Use permit. These activities include:

- trail cutting (less than 1.5 metres wide and less than 4 ha); and
- short-term wilderness camping.

A Land Use permit allows you to do a specific activity over a specified period of time. A permit does not give you any exclusive rights or tenure to the land.

If you want to do work within a Yukon highway right-of-way, you must apply for a permit from the Department of Highways and Public Works, Transportation Maintenance Branch.

### How do I apply for a Land Use permit?

The Lands Branch will help verify land ownership and supply application forms.

If you wish to obtain a land use permit, you must submit a land use permit application form and an application fee.

### How is my Land Use permit processed?

Lands Branch conducts a review of applications for policy constraints, completeness and determines if your application is subject to YESAA.

If your application is subject to YESAA, you will be directed to the appropriate YESAA Designated Office. You will be required to complete a YESAA Project Proposal Form and attach your Land Use permit application form. The YESAA Designated Office, Project Assessor will notify government agencies and other interested parties, receive comments, prepare an assessment and forward his/her recommendation to the Lands Branch. The Lands Branch issues a decision document on the application/project allowing it to proceed, proceed with conditions or not proceed. Lands Branch issues Land Use permit in conformity with decision document. This completes the regulatory process.

One of a series of fact sheets published by the Department of Energy, Mines and Resources

April 2006

### ADMINISTRATIVE JURISDICTIONS

#### YUKON GOVERNMENT

Controls the majority of all vacant land in the territory.

#### ENERGY, MINES AND RESOURCES

**Lands Branch** accepts applications to sell, lease, develop and use land under Yukon government control.

**Agriculture Branch** administers Yukon agricultural and grazing programs.

**Minerals Management Branch** administers placer and quartz claims, rights and use in the territory.

**Forestry Branch** administers timber permits and forestry planning.

#### COMMUNITY SERVICES

**Community Land Planning** manages zoning regulations in rural Yukon and administers subdivision outside Whitehorse and Dawson City. Also provides mapping services.

#### YUKON FIRST NATIONS

Control their own settlement lands.

#### MUNICIPALITIES

Administer lands, community plans and zoning bylaws within their jurisdictions.

Whitehorse and Dawson City also control subdivision within their boundaries.

*The Government of Canada, through Natural Resources Canada, Legal Surveys Division provides maps and plans for a fee.*

## What other approvals do I need to obtain?

A Land Use permit allows you to undertake specific activities on Yukon lands. However, it doesn't exclude you from obtaining any other necessary approvals or endorsements from other jurisdictions or authorities.

For example, you may need approval from Federal Fisheries and Oceans where a proposed activity may affect fish habitat.

You may also be required to consult with other agencies before starting work at the site, for example, referral to a utility company regarding underground or overhead lines.

Land Use section can tell you what other approvals you may need.

## Is there a cost for my Land Use permit?

There are application fees and land use fees depending on where the land is located. A Land Use permit does not grant any exclusive rights or tenure to the land so there are no annual land or rental costs.

When the proposed activity includes the removal of gravel or aggregate, a royalty fee may also apply. (*See Fact Sheet 9: Quarry permits.*)

All fees are payable at the time of application. Contact the Lands Branch for more information.

## CONTACTS

### YUKON GOVERNMENT

#### ENERGY, MINES AND RESOURCES
