Ottawa, 28 September 2005

<b>Item</b>	<b>Applicant and Locality</b>

2.	<b>Radio-Classique Montréal inc. (CJPX-FM)</b> Montréal, Quebec
3.	<b>Burlingham Communications Inc.</b> (CIWV-FM) Hamilton/Burlington, Ontario

1. **Across Canada**  
**Application No. 2005-0849-2**

Application by the **Canadian Broadcasting Corporation (CBC)** to amend the licence of the national Category 1 specialty programming undertaking known as Country Canada.

The licensee proposes to amend the following portion of the condition of licence 1a) which reads:

No more than 10% of all programming broadcast during each broadcast week shall be devoted to subcategories 6a and 6b.

with the following:

No more than 10% of all programming broadcast during each broadcast year shall be drawn from subcategories 6a and 6b.

The licensee indicated that approval of the proposed amendment would provide Country Canada with the flexibility to more effectively schedule event-based sports programs and improve the attractiveness of the service to subscribers while maintaining the same amount of sports that is permitted to be broadcast throughout the year.

The applicant is further requesting to amend another portion of condition of licence 1 a) in order to remove the reference to Country Music Television (CMT).

The licensee stated that the reference to the Corus-owned service CMT was appropriate at the time of the original licensing decision as Corus maintained a 70% ownership interest in Country Canada. However, pursuant to Broadcasting Decision CRTC 2002-336, *Transfer of effective control of 3899071 Canada Inc.*, 24 October 2002, Corus transferred all of its shares in Country Canada to CBC. As a result, CBC owns and controls the licensee so therefore, the reference to CMT in the nature of service condition of licence is no longer relevant or necessary.

2. **Montréal, Quebec**  
**Application No. 2005-0699-1**

Application by **Radio-Classique Montréal inc.** relating to the licence of radio programming undertaking CJPX-FM Montréal.

The licensee proposes using a Subsidiary Communications Multiplex Operations (SCMO) channel to broadcast predominantly Punjabi, Hindi, Urdu, Bengali, Tamil and Sinhalese-language programming. Programming broadcast using an SCMO channel is not accessible with standard radio equipment and requires the use of a special receiver.

This new service would replace a Tamil-language radio service approved in Decision CRTC 99-203, *New Tamil-language SCMO service*.

3. **Hamilton/Burlington, Ontario**  
**Application No. 2005-0834-3**

Application by **Burlingham Communications Inc.** relating to the licence of radio programming undertaking CIWV-FM Hamilton/Burlington.

The licensee proposes to change the authorized contours by increasing the average effective radiated power from 11,390 watts to 21,400 watts (maximum effective radiated power of 45,000 watts/ antenna height of 136.1 metres).

The licensee indicated that the proposed change would improve service to listeners in its prime market of Hamilton/Burlington and surrounding areas, particularly the western and northern parts of the City of Hamilton and in north-east Burlington. As well it would maximize the use of frequency 94.7 MHz while respecting the interference protections to other Canadian and U.S. stations.

The authorized contours of the station will be increased significantly resulting from the proposed increase in power.
