The licensee proposes to amend its condition of licence relating to the nature of service in order to permit it to broadcast programming from category 14 (Infomercials, promotional and corporate videos).

Application No. 2005-0869-0

Application by **Sound of Faith Broadcasting** relating to the licence of radio programming undertaking CJTW-FM Kitchener.

The licensee proposes to change the authorized contours by increasing the effective radiated power from 50 watts to an average effective radiated power of 141 watts and by increasing the antenna height (maximum effective radiated power of 250 watts/antenna height of 58 metres).

The licensee stated that the proposed changes will result in a better quality signal to listeners located in the Kitchener and Waterloo part of its licensed area who are currently experiencing poor reception of CJTW-FM.

The Commission notes that the contours of the station would be increased significantly and that the increase in power would result in a change of the CJTW-FM's status from an unprotected low power service to a regular Class A FM station.
