Application by **Wild TV Inc.** to amend the licence of the national Category 2 specialty programming undertaking known as WILD TV.

The licensee proposes to make the above-noted service available for distribution in high definition format. The programming would be the same as the analog version of the service.

In *The regulatory framework for the distribution of digital television signals*, Broadcasting Public Notice CRTC 2003-61, dated 11 November 2003, the Commission stated the following in paragraph 67:

The Commission will permit the licensee of a Canadian pay or specialty service to make available for distribution an upgraded version of the service, provided that not less than 95% of the video and audio components of the upgraded and analog versions of the service are the same, exclusive of the commercial messages and of any part of the service carried on a subsidiary signal.
