Windermere, British Columbia

PREAMBLE

Items 2, 3, 4, 5, 6 and 7 are technically mutually exclusive for the use of the 104.7 MHz frequency: They will be treated as competitive radio applications.

1. St. Catharines, Ontario Application No. 2003-1498-0

Application by **TVN Niagara Inc.** for a licence to operate an English-language television programming undertaking in St. Catharines.

The new station would operate on channel 22C with an average effective radiated power of 401,000 watts (maximum effective radiated power of 1,000,000 watts/antenna height of 245 metres).

The applicant has indicated that programming on the proposed service would be designed to serve St. Catharines and the Niagara region.

Applicant's address:

101 King Street
Suite 12
St. Catharines, Ontario
L2R 3H6
Fax: (905) 685-7110
E-Mail: wgwilks@tvn.ca

Examination of application:

[\[Broadcasting Intervention/Comments Form\]](#)

2. Woodstock, Ontario Application No. 2004-0060-7

Application by **Byrnes Communications Inc.** for a licence to operate an English-language FM commercial radio programming undertaking at Woodstock.

The new station would operate on frequency 104.7 MHz (channel 284A) with an average effective radiated power of 1,910 watts (maximum effective radiated power of 6,000 watts/antenna height of 99.5 metres).

The applicant proposes a mainstream adult contemporary music format.

The Commission will only proceed with this application at the public hearing if advised by the Department of Industry, at least twenty days prior to the hearing, that it is technically acceptable.

Applicant's address:

315 – 2289 Fairview Street
 Burlington, Ontario
 L7R 2E3
 Fax: (978) 428-8581

3. **Woodstock, Ontario**
Application No. 2005-0015-9

Application by **Standard Radio Inc.** for a licence to operate an English-language commercial radio programming undertaking at Woodstock.

The new station would operate on frequency 104.7 MHz (channel 284B) with an average effective radiated power of 2,630 watts (maximum effective radiated power of 5,000 watts/antenna height of 261 metres).

The applicant proposes a modern rock format.

The Commission will only proceed with this application at the public hearing if advised by the Department of Industry, at least twenty days prior to the hearing, that it is technically acceptable.

Applicant's address:

2 St. Clair Street West
 11th Floor
 Toronto, Ontario

4. **Woodstock, Ontario**
Application No. 2005-0020-9

Application by **CHUM Limited** for a licence to operate an English-language FM commercial radio programming undertaking in Woodstock.

The applicant proposes a soft adult contemporary format.

The new station would operate on frequency 104.7 MHz (channel 284B) with an average effective radiated power of 3,200 watts (maximum effective radiated power of 10,000 watts/antenna height of 205.9 metres).

The Commission will only proceed with this application at the public hearing if advised by the Department of Industry, at least twenty days prior to the hearing, that it is technically acceptable.

Applicant's address:

1331 Yonge Street
Toronto, Ontario

5. **Woodstock, Ontario**
Application No. 2005-0026-6

Application by **Newcap Inc.** for a licence to operate an English-language FM commercial radio programming undertaking in Woodstock.

The new station would operate on frequency 104.7 MHz (channel 284B) with an average effective radiated power of 3,200 watts (maximum effective radiated power of 10,000 watts/antenna height of 154.1 metres).

The applicant proposes a “gold based AC” format that will feature predominately gold-based musical selections from the 70’s, 80’s and 90’s.

The Commission will only proceed with this application at the public hearing if advised by the Department of Industry, at least twenty days prior to the hearing, that it is technically acceptable.

Applicant's address:

745 Windmill Road
 Darthmouth, Nova Scotia
 B3B 1C2
 Fax: (902) 468-5661
 E-Mail: ncc@ncc.ca

Examination of application:

Chinneck, Lawyer
 871 Dundas Street
 Woodstock, Ontario

[\[Broadcasting Intervention/Comments Form\]](#)

6. Woodstock, Ontario
Application No. 2005-0048-0

Application by **Sound of Faith Broadcasting** to amend the licence of radio programming undertaking CJFH-FM Woodstock.

The licensee proposes to amend the licence by changing the frequency from 94.3 MHz (channel 232LP) to 104.7 MHz (channel 284A). The licensee also proposes to change the authorized contours by increasing the average effective radiated power from 50 to 3,100 watts and by increasing the antenna height (maximum effective radiated power of 5,350 watts/antenna height 104 meters).

The proposed increase in power and antenna height will increase significantly the authorized contour of CJFH-FM.

The Commission notes that the power increase will result in a change of CJFH-FM’s status from a low power unprotected service to a protected Class “A” FM station.

The Commission will only proceed with this application at the public hearing if advised by the Department of Industry, at least twenty days prior to the hearing, that it is technically acceptable.

7. Tillsonburg, Ontario
Application No. 2004-1290-9

Application by **Tillsonburg Broadcasting Company Limited** to convert radio station CKOT Tillsonburg from the AM band to the FM band.

The new station would operate on frequency 104.7 MHz (channel 284 B1) with an average effective radiated power of 2,300 watts (maximum effective radiated power of 5,000 watts/antenna height of 163.5 metres).

The applicant is requesting permission to simulcast the programming of the new FM station on CKOT for a period of three months from the date of implementation of the new station.

The applicant is also requesting, pursuant to sections 9(1)(e) and 24(1) of the Broadcasting Act, the revocation of the licence of CKOT effective at the end of the simulcast period.

The applicant proposes to maintain its current country music format and its local programming focus.

This application requires the issuance of a new licence.

Applicant's address:

77 Broadway Street
 Tillsonburg, Ontario
 N4G 4H3
 Fax: (519) 842-4284
 E-Mail: jamers@easy101.com

Examination of application:

8. **Across Canada**
Application No. 2004-1036-6

Application by **Aboriginal Peoples Television Network Incorporated** (APTN) to renew the licence of its satellite-to-cable programming undertaking and its transmitters listed below, expiring 31 August 2005.

The applicant requests that the licence be renewed for a full seven-year term subject to the same terms and conditions as currently applied, with the exception of the following proposals:

- to increase the minimum level of Canadian programming to be broadcast on the service from 70% to 75%;
- to increase the authorized maximum fee charged to distributors for the carriage of APTN as part of the basic service by \$0.10 per subscriber per month. The additional revenues will primarily be used to increase the quality and quantity of Canadian programs;
- to split the feed of its southern signal into two distinct eastern and western regions.

APTN expects that terrestrial distribution undertakings that must distribute its service (i.e. Class 1 and Class 2 undertakings, including MDS) would be required to distribute either the Eastern or the Western feed, depending on their location. APTN believes that it would be appropriate for the Commission to require the two national Direct-to-home undertakings to carry both the Eastern and the Western feeds.

By the end of the proposed licence term, APTN also expects that it will be fully high definition (HDTV) capable and will commission some of its major series in this format.

[\[Broadcasting Intervention/Comments Form\]](#)

14. **Little Current, Ontario**
Application No. 2005-0031-5

Application by **Manitoulin Radio Communications Inc.** for a licence to operate an English-language FM Type A community radio programming undertaking in Little Current.

The new station would operate on frequency 101.1 MHz (channel 266LP) with an effective radiated power of 5 watts (non-directional antenna/antenna height of 59.7 metres).

The applicant proposes to offer pop rock, country and dance format along with news, weather, sports, commentary, community information, and public service announcements.

The applicant also proposes a minimum of two hours per week of programming in Aboriginal languages.

In Decision CRTC 2001-578, 12 September 2001, the Commission approved an application by MSD Computer Corp., on behalf of a corporation to be incorporated, to operate a new developmental community radio station in Little Current (CFRM-FM). The licence for CFRM-FM expires 12 september 2005.

In *Community Radio Policy*, Public Notice CRTC 2000-13, 28 January 2000, the Commission stated that developmental radio stations would generally be licensed for three years. At the end of this term, licensees will be expected to have filed an application with the Commission for a regular community radio licence, or to cease operations.

The applicant is applying for a Type A community radio station. The Commission notes that there is at least one other station, other than a station owned by the CBC, that is licensed to operate in the same language in all or any part of the market of Little Current. In such a situation, according to the *Community Radio Policy* (Public Notice CRTC 2000-13), the Commission would generally consider this application as a Type B community radio station.

The applicant is proposing to devote a minimum of 10% of its programming to spoken word programming.

The Commission will only proceed with this application at the public hearing if advised by the Department of Industry, at least twenty days prior to the hearing, that it is technically acceptable.

21. **Estevan, Saskatchewan**
Application No. 2004-0662-0

Application by **Dyracom Communications Inc.** for a licence to operate an English-language low-power FM commercial radio programming undertaking in Estevan.

The new station would operate on frequency 106.3 MHz (channel 292LP) with an effective radiated power of 50 watts (non-directional antenna/antenna height of 34.8 metres).

The applicant proposes to provide a progressive rock music format with emphasis on presenting local musical talent.

Applicant's address:

5907-50th Street
 Taber, Alberta
 T1G 1J6
 Fax: (403) 223-0020
 E-Mail: dyracom@dyracom.ca

22. **Edmonton, Alberta**
Application 2004-1587-9

Application by **Milestone Media Broadcasting (Edmonton) Limited** (MMBEL), an affiliate of Milestone Media Broadcasting Ltd. (MMBL), to acquire the 49% partnership interest in Edmonton Vibe Partnership (EVP) held by MMBL. The current partners of EVP are MMBL and CHUM Limited (CHUM). They received authorization to operate the radio programming undertaking in Edmonton in Broadcasting Decision CRTC 2004-133 (Decision 2004-133), 5 April 2004. Following this transaction, MMBEL will become the partner with CHUM in EVP.

The applicant proposes to transfer the licensing authority with regards to the above-noted undertaking, so as to become the new licensee of this undertaking under the same terms and conditions specified in Broadcasting Decisions CRTC 2004-133 and 2004-567. The Commission has not yet issued the licence for this undertaking because the licensing requirements have not yet been met. The applicant would need to meet the licensing requirements of Broadcasting Decisions CRTC 2004-133 and 2004-567 before the licence could be issued to MMBEL and CHUM partners in EVP.

Applicant's address:

1060 Eglinton Avenue East
 Mississauga, Ontario
 L4W 1K3
 Fax: (416) 214-0660
 E-Mail: denham@flow935.com

23. **Red Deer, Alberta**
Application Nos 2005-0131-3, 2005-0165-2

Applications by **Newcap Inc.** (Newcap) on behalf of a subsidiary of Corus Radio Company (CRC) to be incorporated (NewCo), in order to obtain authority to effect a change in ownership and control of the following radio programming undertakings currently held by CRC, a wholly owned subsidiary of Corus Entertainment Inc.:

- CIZZ-FM Red Deer; and
- CKGY-FM Red Deer.

The proposed transaction involves two steps:

- 1) The acquisition by NewCo of all assets related to the above-noted undertakings from CRC; and
- 2) The transfer of all shares of NewCo from CRC to Newcap.

The value of the transaction is estimated at \$8,392,714.

Pursuant to Commercial Radio Policy 1998 (*Public Notice CRTC 1998-41*), April 30th 1998, Newcap has proposed a tangible benefits package of \$503,563, representing a financial contribution to Canadian talent development of 6% of the value of the transaction.

The applicant is also requesting licences to continue the operation of these undertakings, on the same terms and conditions, upon surrender of the current licences issued to CRC.

Applicant's address:

745 Windmill Road
Dartmouth, Nova Scotia
B3B 1C2
Fax: (902) 468-5661

24. **Windermere, British Columbia**
Application No. 2004-0888-2

Application by **Windermere Community Association** for a licence to operate an English-language FM developmental community radio programming undertaking in Windermere.

The new station would operate on frequency 93.5 MHz (channel 228VLP) with an effective radiated power of 1.51 watts (non-directional antenna/antenna height of 8 metres).

The applicant notes that the programming would highlight local activities, talent, news and community initiatives.

Applicant's address:

4747 Government Street
Windermere, British Columbia
V0B 2L0
Fax : (250) 342-2188
E-Mail: csica@telus.net

Public Participation

Deadline for interventions/comments

12 May 2005

The intervention must be received by the CRTC and by the applicant on or before the above-mentioned date. The Commission cannot be held responsible for postal delays.

The intervention must include one of the following statements in either the first or the last paragraph:

- 1 - I request to appear at the public hearing.
- 2 - I do not want to appear at the public hearing.

Your intervention will be considered by the Commission, and will form part of the public record of the proceeding without further notification to you, provided the procedure set out below has been followed. You will be contacted only if your submission raises procedural questions.

Submit your written intervention to the Secretary General of the Commission in **only one** of the following formats:

by using the
Broadcasting Intervention/Comments Form
located below the description of each application within this notice of public hearing

or

by mail to
CRTC, Ottawa, Ontario K1A 0N2

or

by fax at
(819) 994-0218

A true copy **must** be sent to the applicant and proof that this has been done must accompany the intervention sent to the Commission.

The Commission advises those who file and serve by electronic mode to exercise caution when using e-mail for service of documents or notification, as it may be difficult to establish that service has occurred.

Before initiating service through electronic mode, please ensure that you will be able to satisfy the Commission, upon request, that service of the notification was completed.

Where the intervention is filed by electronic means, the line *****End of document***** should be entered following the last paragraph of the document, as an indication that the document has not been damaged during electronic transmission.

Each paragraph of the document should be numbered.

Your intervention should clearly identify the application and indicate whether you support or oppose the application, or if you propose changes to it, include the facts and grounds for your proposal.

In the event that the application is brought to the oral phase of the hearing, and if you wish to appear, you must provide reasons why your written comments are not sufficient and why an appearance is necessary.

Persons requiring communications support such as assistance listening devices and sign language interpretation are requested to inform the commission at least twenty (20) days before the commencement of the public hearing so that the necessary arrangements can be made.

Important

All information submitted, including your email address, name and any other personal information as provided, will become part of the public record and can be viewed on the Commission's Web site.

Documents sent in electronic format will be put on the Commission's Web site exactly as we received them, and in the official language and format in which they are sent. Documents not received electronically will be scanned and put on the Web site.

Examination of documents

An electronic version of applications is available from the Commission's web site by selecting the application number within this notice.

A list of all interventions/comments will also be available on the Commission's Web site. An electronic version of all interventions/comments submitted will be accessible from this list. To access the list, select "Lists of interventions/comments" under "Public Proceedings" from the Commission's Web site.

Documents are also available during normal office hours at the local address provided in this notice and at the Commission offices and documentation centres directly involved with these applications or, upon request, within 2 working days, at any other CRTC offices and documentation centres.
