14. **Lethbridge, Alberta**  
**Application Nos. 2005-0448-2 and**  
**2005-0599-3**

Applications by **Golden West Broadcasting Ltd.** (Golden West) to:

- a) acquire the assets of the radio programming undertaking CJTS-FM, an English-language specialty FM radio station at Lethbridge, from Spirit Broadcasting Ltd. (Spirit); and
- b) to amend the licence by changing the frequency from 97.1 MHz (channel 246LP) to 98.1 MHz (channel 251B) and to change the authorized contours by increasing the effective radiated power from 50 watts to 20,000 watts, by increasing the antenna height and by relocating the transmitter (non-directional antenna/antenna height 174.3 metres).

The applications are non-severable.

The value of the transaction is estimated at \$225,000. No tangible benefits have been proposed by the applicant.

The applicant is requesting a licence to continue the operation of this undertaking upon surrender of the current licence issued to Spirit, and confirms that it would adhere to the conditions of licence currently in place for CJTS-FM as set out in Decision CRTC 2000-743.

A true copy **must** be sent to the applicant and proof that this has been done must accompany the intervention sent to the Commission.

The Commission advises those who file and serve by electronic mode to exercise caution when using e-mail for service of documents or notification, as it may be difficult to establish that service has occurred.

Before initiating service through electronic mode, please ensure that you will be able to satisfy the Commission, upon request, that service of the notification was completed.

Where the intervention is filed by electronic means, the line **\*\*\*End of document\*\*\*** should be entered following the last paragraph of the document, as an indication that the document has not been damaged during electronic transmission.

Each paragraph of the document should be numbered.

Your intervention should clearly identify the application and indicate whether you support or oppose the application, or if you propose changes to it, include the facts and grounds for your proposal.

In the event that the application is brought to the oral phase of the hearing, and if you wish to appear, you must provide reasons why your written comments are not sufficient and why an appearance is necessary.

Persons requiring communications support such as assistance listening devices and sign language interpretation are requested to inform the commission at least twenty (20) days before the commencement of the public hearing so that the necessary arrangements can be made.

Documents received electronically or otherwise will be put on the CRTC's website in their entirety exactly as received, including any personal information contained therein, and in the official language and format in which they are sent.

The personal information you provide will be used and disclosed for the purpose for which the information was obtained or compiled by the CRTC or for a use consistent with that purpose.
