

Broadcasting Decision CRTC 2005-415

Ottawa, 16 August 2005

Canadian Broadcasting Corporation
(Inuvik and Tuktoyaktuk, Northwest Territories)

Application 2005-0529-0
Broadcasting Public Notice CRTC 2005-63
22 June 2005

CHAK Inuvik – New transmitter in Tuktoyaktuk

1. The Commission **approves** the application by the Canadian Broadcasting Corporation to amend the broadcasting licence for the radio programming undertaking CHAK Inuvik in order to operate an AM transmitter in Tuktoyaktuk.
2. The new transmitter will operate at 1,150 kHz with a transmitter power of 40 watts day-time and night-time.
3. The Commission did not receive any interventions in connection with this application.
4. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department of Industry (the Department) notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.
5. Given that the technical parameters approved in this decision are for a low-power unprotected AM service, the Commission also reminds the licensee that it will have to select another frequency if the Department so requires.
6. The transmitter must be operational at the earliest possible date and in any event no later than 24 months from the date of this decision, unless a request for an extension of time is approved by the Commission before 16 August 2007. In order to ensure that such a request is processed in a timely manner, it should be submitted in writing at least 60 days before that date.

Secretary General

This decision is to be appended to the licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>
