

## Broadcasting Decision CRTC 2005-450

Ottawa, 1 September 2005

**Canadian Broadcasting Corporation**  
Halifax and Yarmouth, Nova Scotia

*Application 2005-0337-7*

*Broadcasting Public Notice CRTC 2005-65*

*5 July 2005*

### **CBAX-FM Halifax - New transmitter in Yarmouth**

1. The Commission **approves** the application by the Canadian Broadcasting Corporation to amend the broadcasting licence for the radio programming undertaking CBAX-FM Halifax, in order to operate a transmitter in Yarmouth.
2. The licensee proposed to add an FM transmitter in Yarmouth to broadcast the programming of CBAX-FM Halifax in order to serve the population of Yarmouth. The new transmitter will operate at 106.1 MHz (channel 291B) with an average effective radiated power of 20,500 watts.
3. The Commission did not receive any interventions in connection with this application.
4. The Department of Industry (the Department) has advised the Commission that, while this application is conditionally technically acceptable, it will only issue a broadcasting certificate when it has determined that the proposed technical parameters will not create any unacceptable interference with aeronautical NAV/COM services.
5. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.

6. The transmitter must be operational at the earliest possible date and in any event no later than 24 months from the date of this decision, unless a request for an extension of time is approved by the Commission before 1 September 2007. In order to ensure that such a request is processed in a timely manner, it should be submitted in writing at least 60 days before that date.

Secretary General

*This decision is to be appended to the licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>*
