

Broadcasting Decision CRTC 2005-420

Ottawa, 18 August 2005

3077457 Nova Scotia Limited
Fredericton, New Brunswick

Application 2005-0181-8
Broadcasting Public Notice CRTC 2005-56
7 June 2005

Use of frequency 93.3 MHz with the low-power tourist information service in Fredericton

1. The Commission **approves** the application by 3077457 Nova Scotia Limited in order to operate its English-language low-power FM radio programming undertaking at 93.3 MHz (channel 227LP) with an effective radiated power of 50 watts. The applicant had originally proposed to operate its new station at 93.1 MHz (channel 226LP) with an effective radiated power of 50 watts.
2. The applicant filed this application further to the Commission's direction in *Low power tourist information service in Fredericton*, Broadcasting Decision CRTC 2004-524, 26 November 2004 (Decision 2004-524). In Decision 2004-524, the Commission stated that it would only issue a licence for this station provided that the applicant submitted an application proposing the use of another FM frequency that would be acceptable to both the Commission and to the Department of Industry (the Department).
3. The Commission received one intervention in support of this application.
4. The Department has advised the Commission that, while this application is conditionally technically acceptable, it will only issue a broadcasting certificate when it has determined that the proposed technical parameters will not create any unacceptable interference with aeronautical NAV/COM services.
5. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.

6. Given that the technical parameters approved in this decision are for a low-power unprotected FM service, the Commission also reminds the licensee that it will have to select another frequency if the Department so requires.

Secretary General

This decision is to be appended to the licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>
