

## Broadcasting Decision CRTC 2006-32

Ottawa, 6 February 2006

**Standard Radio Inc.**  
Salmon Arm, British Columbia

*Application 2005-1090-1*  
*Broadcasting Public Notice CRTC 2005-111*  
*25 November 2005*

### **CKXR-FM Salmon Arm – Technical change**

1. The Commission **approves** the application by Standard Radio Inc. (Standard) to amend the broadcasting licence for the radio programming undertaking CKXR-FM Salmon Arm, authorized in *CKXR Salmon Arm – Conversion to FM band*, Broadcasting Decision CRTC 2005-77, 25 February 2005, in order to change the frequency from 99.7 MHz (channel 259B) to 91.5 MHz (channel 218B).
2. The Commission did not receive any interventions in connection with this application.
3. The licensee stated that the proposed change will resolve the interference problem of its signal in the areas south of Salmon Arm near Kelowna, such as Enderby, with that of CHSU-FM Kelowna, which is owned by Standard and which operates at 99.9 MHz.
4. The Commission notes that the station's authorized contours will not be affected by this change.
5. The Commission reminds the licensee that, pursuant to section 22(1) of the *Broadcasting Act*, this authority will only be effective when the Department of Industry notifies the Commission that its technical requirements have been met, and that a broadcasting certificate will be issued.

Secretary General

*This decision is to be appended to the licence. It is available in alternative format upon request, and may also be examined in PDF format or in HTML at the following Internet site: <http://www.crtc.gc.ca>*
