Dear Ms. Rhéaume:

RE: Additional Interrogatory Response - Telecom Public Notice CRTC 2006-10 - Continued need for the regulatory constraints applicable to toll and toll-free services

1. This interrogatory response is filed in response to Telecom Public Notice CRTC 2006-10, titled - *Continued need for the regulatory constraints applicable to toll and toll-free services* on behalf of TELUS Communications Company ("TELUS".)
2. On September 22, 2006, TELUS had not yet been able to assemble the data to respond to TELUS(CRTC)1Sept06-6c). TELUS claims confidentiality in respect to the specific data provided in the tables in this interrogatory pursuant to Rule 19 of the *CRTC Telecommunications Rules of Procedure*. This information is confidential because it is TELUS-specific information that could be used by TELUS' current and potential competitors to better address TELUS' toll customers with competitive toll packages. Such information could be used in particular by VoIP, pre-paid calling card and other toll competitors that have either entered, or are poised to enter to provide competing services. The release of this information would prejudice TELUS' competitive position thereby causing TELUS direct and specific harm.

3. Attached please find the TELUS response for TELUS(CRTC)1Sept06-6c) for residential clients. The data for business clients will be provided shortly.

Yours truly,
