The Archives of Manitoba provides limited in-house copying of audio visual materials. Clients must provide the Archives with new unused blank tapes in sealed packaging. Reproductions of some formats, large orders, and rush requests may be outsourced to a local reproduction house. The client will be charged directly by the reproduction house for studio time, shipping and handling charges and cassette costs. Please consult the *Guide to Audio Visual Reproduction Services* or ask staff for advice if you are unsure of any steps required. Your request will be expedited more quickly if you fill in separate request forms for material from the Government Records, Private Records and Hudson's Bay Company Archives sections of the Archives of Manitoba. Note: Different forms are required for photographic reproductions, photocopying, filming or digital copying.
