Reproductions Required For:
Personal Use Publication Legal Commercial/Business Film/Video/CD ROM Exhibition School/University Government Other

Prior approval is required for filming or digital copying of Archives of Manitoba records. No filming or digital copying will be approved for material which is still under copyright, or which has donor applied restrictions, unless written permission has been obtained from the copyright holder. Your request will be expedited more quickly if you fill in separate requests for Private Records, Government Records and Hudson's Bay Company Archives sections. Any additional items located after you have started copying must also receive approval. Approval to film, scan or digitise does not constitute permission to publish these image(s). Permission to publish must be requested as well. Researchers are responsible for observing the terms of Canadian copyright legislation. Please consult the Guide to Onsite Filming or Digital Copying or ask staff for advice if you are unsure of any of the steps required. Note: Different forms are required for photographic reproductions, audio visual reproductions and filming and digital copying.
